Feedback Form

Event Name: Workshop on "Data Analytics using Power BI"

Date: 30/5/24

Please provide us with your feedback by completing this questionnaire.

Please rate the Activity on the following scale (1: Poor, 2: Fair, 3: Good, 4: Very good, 5:Excellent) by encircling an option below.

1.	Knowledge or skills gained from the activity	1	2	3	4	5
						✓
2.	Relevance of Content to Your Studies/Career Interests	1	2	3	4	5
						✓
3.	How engaging were the industry professionals during the activity?	1	2	3	4	5
						✓
4.	How closely did the content of the activity align with your current academic studies or career interests?	1	2	3	4	5
						✓
5.	On a scale of poor to excellent, how would you rate the relevance of this activity to your studies and future career?	1	2	3	4	5

Remarks: Resource person Ms. Shilpa demonstrated Power BI tool for data analytics. All students gained knowledge about Power BI. Good response from students.

BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	“Internet of Things”
RESOURCE PERSON DETAILS	Dr. Sreenivasa setty , Prof. Dept. of CSE , AMCEC
OBJECTIVE	<ul style="list-style-type: none"> • Introduce IoT Concepts: Familiarize participants with the fundamental concepts, terminology, and architecture of the Internet of Things. • Practical Skills Development: Equip participants with practical skills to design, develop, and deploy IoT solutions through hands-on exercises and real-world examples.

CITY ENGINEERING COLLEGE

Approved by AICTE New Delhi & Affiliated by VTU, Belagavi
Doddakallasandra, Off Kanakapura Main Road,
Next to Gokulam Apartment, Bangalore - 560 062.

	<ul style="list-style-type: none">• Application Exploration: Explore various applications of IoT across different industries, such as smart homes, healthcare, agriculture, and manufacturing, to demonstrate its impact and potential.• Technology Integration: Demonstrate how to integrate various IoT components, such as sensors, actuators, communication protocols, and cloud services, to create a functional IoT system.
EVENT DETAILS	<p>Dr. Setty discussed how IoT is revolutionizing smart devices and enhancing connectivity in everyday life. He also covered the integration of IoT with emerging technologies and the potential it holds for future innovations. The event provided insights into the challenges and opportunities in the IoT field, offering participants a thorough understanding of this cutting-edge technology.</p>
OUTCOMES	<ul style="list-style-type: none">• Understanding IoT Fundamentals: Gain a solid grasp of the basic principles and architecture of the Internet of Things (IoT), including key concepts such as sensors, actuators, and communication protocols.• Hands-On Experience with SST IoT Development Board: Acquire practical skills in using the SST IoT Development Board to design and implement IoT projects. Participants will learn to configure and program the board, connecting various sensors and actuators.• Sensor Integration and Data Collection: Learn how to integrate different types of sensors with the SST IoT Development Board to collect and process data. Participants will understand the methods for acquiring and interpreting sensor data for various applications.

CIRCULAR

Dear Students,

We are pleased to announce that a guest lecture will be conducted for CSE students on 25/5/2024 at 10:30 AM in CSE Seminar Hall.

Guest Speaker: Mr. Narasimha Prasad, Project Manager, ACCENTURE Services Pvt. Ltd.

Topic: Industry Insights: Bridging Software Engineering and Project Management

This lecture aims to provide students with valuable insights into sustainable Software Engineering practices that contribute to a greener future. The discussion will cover various strategies and techniques for developing software that minimizes environmental impact and promotes sustainability in the tech industry. All students are here by informed to attend the event.

FIG : Resource Person Mr. Narasimha Prasad delivering a session to students on industry insights related to bridging software engineering and project management.

BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	“Industry Insights: Bridging Software Engineering and Project Management”
RESOURCE PERSON DETAILS	Mr. Narasimha Prasad, Project Manager,ACCENTURE Services Pvt. Ltd.
OBJECTIVE	<ul style="list-style-type: none"> • Understanding the Interconnection: • Explain how software engineering and project management are interconnected. Highlight the importance of integrating both disciplines for successful project outcomes. • Industry Trends and Best Practices: • Share current trends and best practices in the software industry. Provide real-world examples of successful software projects and the role of project management in them.
EVENT DETAILS	Mr. Prasad provided valuable perspectives on how to effectively integrate software engineering practices with project management principles. The session covered best practices for managing software projects, including

BRIEF INFORMATION ABOUT THE ACTIVITY

Name Of the Activity	Workshop on “Prototype Development Using Python”
RESOURCE PERSON DETAILS	Dr. B. Ezhilavan Founder & CEO, VEI technologies Pvt. Ltd,Chennai
OBJECTIVE	<ul style="list-style-type: none">• The objective of a workshop on Prototype Development using Python typically revolves around equipping students with the skills and knowledge to quickly and effectively create prototypes of software applications or systems using the Python programming language.• The workshop aims to empower participants with the skills, confidence, and practical experience needed to leverage Python effectively for rapid prototyping in various domains of software development.
EVENT DETAILS	Dr. Ezhilavan guided students through various aspects of Python programming, including scripting, automation, data handling, and interface design. The session offered hands-on experience, enabling participants to apply Python in creating and refining prototypes efficiently. The workshop also emphasized innovative problem-solving and the practical application of Python in real-world scenarios.
OUTCOMES	The workshop yielded several outcomes for the participants: <ul style="list-style-type: none">• Gain proficiency in using Python for rapid prototyping.• Learning effective techniques for developing prototypes, including iterative development, user feedback incorporation, and rapid iteration based on changing requirements.• Become familiar with essential Python libraries and frameworks for prototyping, such as Flask for web applications, matplotlib for data visualization, or pandas for data manipulation.• To enhance their problem-solving skills in software development contexts, particularly focusing on prototyping challenges.

CIRCULAR: Conference on Engineering Advancements and Sustainable Development

Date: 29/4/2024 – 30/4/2024

Time: 9:00 AM - 5:00 PM

We are pleased to announce the upcoming Conference on Engineering Advancements and Sustainable Development, a premier event uniting researchers, engineers, and practitioners to share innovations in sustainability.

Key themes include:

Green Technologies: Exploring eco-friendly materials and processes.

Climate Resilience: Strategies for reducing carbon footprints.

Smart Cities: Sustainable urban development and intelligent transportation.

Sustainable Manufacturing: Lean manufacturing and resource efficiency.

Participants are encouraged to submit research papers and case studies. Registration options include early bird discounts and various tiers for students, academics, and professionals. Join us for this important event to discuss trends, challenges, and solutions in sustainable engineering practices.

ABOUT THE COLLEGE

City Engineering College, Bangalore affiliated to Visvesvaraya Technological University (VTU) is centrally located in Bangalore. The College has expanded over the last 24 years with sophisticated infrastructure as a part of the Institution's commitment to provide higher quality education in the area of Engineering. The highly facilitated landmark building - provides a perfect ambience for creativity and learning. City Engineering College is known for its academic excellence, friendly welcoming atmosphere and community spirit. Over large number of full time students study here in a wide range of programs. It is a centre of talented experienced teachers who inspire and energize the students to achieve the best.

ABOUT CSE DEPARTMENT

The Department of Computer Science & Engineering was started in the year 2001 is known for imparting Quality education and carrying out cutting edge research. In addition to the UG program, PG CSE program and Research facilities for Ph.D. The Department has an R&D Center as well as an Incubation Center which is facilitating the students to acquire practical knowledge. The Department also offers an MTech. Program (post-graduation) in Computer Science & Engineering. The Department regularly organizes industrial visits, conferences, workshops, technical talks, project exhibitions for the faculty and students training by using in-house resources as well as industry experts. This helps in effectively bridging the gap between academic and industry.

ABOUT THE CONFERENCE

The Conference on Engineering Excellence and Sustainability aims to bring together experts and professionals in the field to discuss and promote innovative solutions for sustainable engineering practices. The conference aims at fostering collaboration, sharing knowledge, and showcasing cutting-edge research and technologies that contribute to both engineering excellence and environmental sustainability. Topics of discussion may range from renewable energy and green infrastructure to sustainable manufacturing and urban planning. Overall, the conference seeks to inspire and empower participants to address the challenges of the modern world through engineering ingenuity while prioritizing environmental stewardship.

OBJECTIVES AND OUTCOMES

- Facilitate the exchange of ideas, research findings, and best practices among engineering professionals and experts
- Inspire participants to innovate and develop solutions that contribute to both engineering excellence and sustainability.
- Networking opportunities will lead to potential collaborations and partnerships between individuals and organizations working towards sustainable engineering solutions.
- Attendees will be inspired to develop and implement innovative solutions that address sustainability challenges within their respective fields.
- The conference will foster a sense of community among participants, leading to ongoing dialogue and collaboration beyond the event itself.

**Call For
Papers**

**1st International Conference on
ENGINEERING ADVANCEMENTS AND SUSTAINABLE DEVELOPMENT
[ICEASD]
29-30 APRIL, 2024, CITY ENGINEERING COLLEGE
BENGALURU, INDIA**

ICEASD

The pursuit of sustainable development has become increasingly imperative in today's world, where environmental degradation and resource depletion pose significant challenges to global prosperity. Engineering, with its capacity for innovation and problem-solving, emerges as a crucial player in this endeavor. The International Conference on Engineering Advancements and Sustainable Development serves as a platform to explore the intersection of engineering advancements and sustainable practices. Through discussions, presentations, and collaborations, the conference aims to foster innovative solutions that promote environmental conservation, economic growth, and social equity and thus, setting the stage for a holistic examination of how engineering can drive sustainable development forward.

CALL FOR PAPERS

The call for papers invites submissions from diverse stakeholders including industries, research and development (R&D) institutions, scholars, and government departments, focusing on research rooted in science and engineering. Papers should contribute novel insights, methodologies, or findings relevant to sustainable development. Guidelines emphasize originality, relevance, and rigor in research methodology. Submissions should adhere to formatting requirements and undergo a peer-review process for selection. The call aims to facilitate knowledge exchange and collaboration among stakeholders, fostering innovative solutions for addressing pressing global challenges.

Participants have to send an abstract not more than 200 words to cse_conference2024@cityengineeringcollege.ac.in. After acceptance, full length original research contributions and review articles not exceeding 6 pages shall be submitted. The template for the manuscript will be communicated through official mail id. The manuscript should not have been published in any journals/magazines or conference proceedings and not under review in any of them.

The book of proceedings of ICEASD will be published in **JOURNAL OF EMERGING TECHNOLOGIES AND RESEARCH**, an Approved UGC Care Journal

The conference report serves as more than just a documentation of proceedings; it is a testament to the collective wisdom, expertise, and innovation that have been brought to the table. It encapsulates the rich tapestry of voices, experiences, and visions that have converged to tackle some of the most pressing issues of our time.

The International Conference on Engineering Advancements and Sustainable Development (ICEASD 2024) was organised by Dept of CSE ,City Engineering College Bangalore on 29th and 30th April 2024

The conference was initiated in February 2024 with Dr Sowmya Naik P T and Dr Sakthivel B as conveners along with 10 members of advisory committee. The main aim of this conference was to bring together leading academicians, researchers, and students to exchange and share their experiences and research outputs on all aspects of Engineering advancements and sustainable developments.

The conference was partnered with publication partner JETIR(**Journal of Emerging Technologies and Innovative Research**) a UGC approved journal.

The media partners were conference alerts and conference next.

The conference preparations started with the call for abstracts; a total of 133 abstracts were received out of which 92 were registered.

ALL registered and selected research papers have been compiled and edited in the form of Conference Proceedings and were published by JETIR Publishers.

The conference maintained a high-quality peer-review process for all the manuscripts submitted, starting with primary evaluation that included a plagiarism check for the original contents.

The 2 days event started with inaugural function on 29th April at 10am with hosting chief guest Mr Shiv Sundhar and was continued by online and offline session on same day .3 online tracks were created for online sessions and 1 offline session was carried out at same time. Dr Swetha P, Dr Neha Singhal, Dr Annu Sharma, Dr Manjunath R and Mr Keerthan Kumar were 5 session chairs allotted for the online and offline session. On 30th the committee completed in house offline session for 24 research papers from CSE and ISE students.

OTUCOMES OF THE CONFERENCE:

The outcomes of the International Conference on Engineering Advancements and Sustainable Development are,

1. **Knowledge Sharing and Dissemination:** Participants present research findings, case studies, and innovative solutions related to engineering advancements and sustainable development. This leads to the exchange of knowledge and ideas among academics, researchers, practitioners, and policymakers.
2. **Networking Opportunities:** Attendees have the chance to network with peers, experts, and professionals in their field, fostering collaborations and partnerships for future research projects or initiatives.
3. **Publication of Proceedings:** Accepted papers may be published in conference proceedings or academic journals, contributing to the scholarly literature in the field of engineering advancements and sustainable development.
4. **Identification of Challenges and Opportunities:** Discussions during the conference may help identify key challenges, emerging trends, and opportunities for further research, policy development, or industry initiatives.
5. **Policy Recommendations:** Insights from the conference presentations and discussions could inform the development of policies, regulations, or guidelines aimed at promoting engineering advancements while ensuring sustainable development practices.
6. **Education and Capacity Building:** Workshops, tutorials, and keynote presentations may enhance the skills and knowledge of participants, contributing to capacity building in areas related to engineering and sustainability.
7. **Awareness and Advocacy:** The conference may raise awareness about the importance of incorporating sustainability principles into engineering practices and highlight the role of engineers in addressing global challenges such as climate change, resource depletion, and environmental degradation.
8. **Innovation and Technology Transfer:** Showcase of innovative technologies, methodologies, and best practices that support sustainable development goals, with potential for technology transfer and adoption in various sectors.
9. **Impact on Industry Practices:** Insights from the conference may influence industry practices, encouraging the adoption of more sustainable engineering approaches, materials, and processes.
10. **Inspiration for Future Research:** The conference discussions and presentations may inspire new research directions, interdisciplinary collaborations, and innovative solutions to pressing challenges at the intersection of engineering and sustainability.

These outcomes contribute to advancing knowledge, fostering collaboration, and promoting sustainable development within the engineering community and beyond.

BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	“Innovative IOT Design Ideas”
RESOURCE PERSON DETAILS	Dr. Sreenivasa Setty, Prof. Dept. of CSE, AMCEC
OBJECTIVE	<p>The primary objectives of the "Innovative IoT Design Ideas" workshop were to equip participants with essential skills and knowledge on IoT design and implementation using Python programming.</p> <p>The course aimed to cover fundamental concepts, tools, and techniques used in IoT using Arduino uno microcontroller kit.</p>
EVENT DETAILS	<p>The session began with an introduction to IoT fundamentals and its various applications. Dr. Setty then guided attendees through techniques for brainstorming and refining IoT design concepts. Key principles for effective IoT system design were discussed, along with methods for prototyping and testing ideas. Real-world case studies showcased successful IoT projects, highlighting practical challenges and solutions.</p>
OUTCOMES	<p>IoT Design and implementation using Python Programming: Participants gained proficiency in designing IoT projects using Python programming language, particularly the microcontroller kit.</p> <p>Programming the IoT devices: Participants developed a very good understanding of IoT design techniques and how they can implement the project.</p> <p>Hands-on Experience: Through hands-on exercises and practical demonstrations, participants gained practical experience in using Python and the microcontroller kit.</p> <p>Problem-Solving Abilities: The workshop equipped participants with problem-solving abilities, enabling them to tackle IoT challenges efficiently.</p>

BRIEF INFORMATION ABOUT THE ACTIVITY

OBJECTIVES	<ul style="list-style-type: none"> • Introduce 4th semester students to the various engineering courses offered at Chanakya University. • Highlight the different specializations available and their relevance in the current job market. • Provide comprehensive information about the curriculum, faculty, and facilities associated with each engineering course.
EVENT DETAILS	<p>The primary objective of the "Engineering Course Discovery Program" event was to raise awareness among 4th semester students about the online courses available in Chanakya University. The event aimed to equip students with knowledge about these courses, highlighting the opportunities for further learning and professional development through online platforms.</p>
OUTCOMES	<ul style="list-style-type: none"> • Participants gained a clear understanding of the engineering courses offered at Chanakya University, including their specializations and career opportunities. • Students showed increased interest in pursuing engineering studies at the university, evidenced by active participation and inquiries during the event.

BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	SETTING UP AND PROGRAMMING IOT DEVICES
OBJECTIVES	The objective is to equip faculty members with practical skills and knowledge necessary for leveraging IoT technology in educational and research contexts. By understanding IoT architecture, components, and development platforms, participants will learn how to integrate sensors, actuators, and communication protocols to create functional IoT systems. Hands-on experience in programming these devices will empower faculty to explore real-world applications, enhance curriculum development with IoT concepts, and foster innovation in research through data analytics and visualization. Ultimately, this workshop aims to prepare faculty to effectively teach, research, and collaborate using IoT technologies in their respective fields of expertise.
OUTCOMES	<ul style="list-style-type: none">• Hands-on Proficiency: Gain practical skills in configuring and deploying IoT hardware and software components.• Enhanced Curriculum: Ability to integrate IoT concepts into educational curricula, fostering

innovative teaching methods and engaging student projects.

- **Research Capabilities:** Use IoT devices for impactful research in fields like data analytics and cybersecurity, utilizing real-world IoT data for analysis.
- **Interdisciplinary Collaboration:** Foster collaboration among faculty members across disciplines to address complex challenges using IoT technologies.
- **Preparation for Industry:** Equip faculty with knowledge and skills relevant to industry trends and applications of IoT, enhancing career readiness for students.

SPEAKER'S PROFILE:

Mr. Pravinjith K P is a highly experienced professional with over 30 years of expertise in environmental infrastructure, waste management, renewable energy, climate change, and related fields. Currently serving as the Managing Director at Ecoparadigm, he also holds advisory roles in various organizations, including Bengaluru Solid Waste Management Ltd and Goa Waste Management Corporation. Mr. Pravinjith's educational background includes a Master's degree in Geotechnical Engineering, an Executive MBA from Commonwealth, and ongoing pursuit of a Ph.D. in Municipal Solid Waste. He is also a Lead Auditor for EMS 14000 and an Internal Quality Auditor for ISO 9000. His extensive project experience covers diverse areas, from recycling and recovery facilities to sewage management, rainwater harvesting, and environmental impact assessment.

Mr. Pravinjith has been a key figure in waste management projects for over 70 cities in India, showcasing his proficiency from concept to commissioning. His involvement in policy-making for the Government of India and collaboration with international agencies such as World Bank, ADB, GIZ, UNDP, and more highlights his global impact. Notably, he played a crucial role in the development of database frameworks for environmental agencies. Mr. Pravinjith's contributions also extend to policy development, having been a technical consultant for the Municipal Solid Waste Management manual and participating in the formulation of plastic and zero waste management policies. As an expert trainer, he has provided training for Comptroller Auditor General (CAG) of eight countries.

His innovative solutions include the development of decision-making software tools for Solid Waste Management, such as "SWAPT" for Swachh Bharat Mission and "ADM" for Agriwaste. Notably, his IoT-based waste weighing system, SEWAC, received recognition from the Ministry of Science and Technology, Govt. of India.

City Engineering College expresses gratitude for Mr. Pravinjith's presence, anticipating valuable insights and wisdom during their interaction with him.

Key Highlights of the Event:

The Chief guest Mr.Pravinjith K P started his talk by addressing the vision “Investment in Environment Towards a Viksit Bharat@2047” .He further added that food, energy and waste is the most strongest weapon that India has to be sustained well.

He explained about the current problems that is been faced such as traffic jams, temperature extremities, fossil fuel sources, sewage treatment, water quality index and e- waste management.

Further he addressed on Environmental risks in India which is “43 cities of India out 100 cities in the world are at the greater risk” that impacts on the submerging of coastal regions. Out of total world’s population 20% belongs to India which is leading to water scarcity and decrease in the land mass because of change in climatic conditions. To overcome water scarcity problems, we need some innovative ideas like replacing rice with millets that require less consumption of water to grow and more nutritious than rice when compared.

He mainly focused and presented insight about the solid waste management which requires generally requires electricity for managing it, but he has developed an business model in which waste management plant converts solid waste that produces electricity and biogas that can be converted to LPG that says “Waste to Energy”.

Technology changes should focus on fundamentals on not compromising the quality.

The following Thematic were explained:

1. Agricultural infrastructure
2. Resources- Renewable and Non-Renewable
3. Social Vision
4. Welfare

He finally concludes with explaining the importance of investing in the environment for the better future and to achieve the goal of Vikshitbharath @ 2047 which states a developed nation by 2047.

Fire Side Chat by Students:

The session also featured a panel discussion and question-and-answer session in which questions from the students and faculty members were taken.

Q1. What Progress can we anticipate in skill development and education for youth by 2047?

A: Technology Integration, Personalized Learning Paths, Global Collaboration and Green Education and Sustainability were elaborated.

Q2. How will startup companies contribute to the country's progress and development.

A: Innovation and Technology Advancement, Economic Growth, Entrepreneurship Ecosystem Development and Social Impact contribute the growth.

Q3. How would the status of smart cities be by 2047.

A: Technological Integration, Urban Mobility Transformation, Sustainability and Green Initiatives and Smart Infrastructure Development would bring up the status of smart cities.

Q4. Can we preserve our cultural values by 2047 because of adaptability to modernization.

A: Balancing Globalization, Media and Entertainment, Community Engagement and Cultural Festivals and Events preserve cultural values.

Q5. Is it possible to bring agriculture into main stream profession and how.

A: Yes, it is not only possible but also crucial to bring agriculture into the mainstream as a viable and respected profession. Agriculture is the backbone of many economies, providing food, raw materials, and employment opportunities.

Q6. What is the future of diplomacy trade and international relations over 25 years.

A: Predicting the future of diplomacy, trade, and international relations over a 25-year period is challenging due to the dynamic nature of global affairs. However, we can identify potential trends and shifts based on current geopolitical, economic, and technological trajectories.

Q7. With Swachh Bharat initiative, population can we make India as one of the cleanest country across the world.

A: The campaign has made substantial progress in improving sanitation and cleanliness, achieving the status of one of the cleanest countries in the world involves ongoing efforts and a multi-faceted approach.

Q8. In what way can we use our Increasing population as an asset, for future development of country.

A: Harnessing the increasing population as an asset for the future development of a country requires strategic planning, investments in human capital, and the creation of opportunities.

Questionnaire By Audience:

Audience was in full enthusiasm and were open for questioning session. Many logical and conceptual questions were raised, the following questions from the audience members were taken.

Q1. How can Institutions Schools, Colleges contribute towards nations development other than traditional education.

A: Addition to providing traditional education, institutions such as schools and colleges can contribute significantly to a nation's development through various non-traditional avenues. Skill Development Programs, Entrepreneurship and Innovation Hubs and Research and Development (R&D) are the few ways for development.

Q2: How do you envision the role and Empowerment of women in India evolving over next 25 Years.

A: Envisioning the role and empowerment of women in India over the next 25 years involves considering various factors, including societal attitudes, policy changes, economic dynamics, and cultural shifts.

ಎಥೆನಾಲ್ ಇಂಧನ ಬಳಸಿ-ಪರಿಸರ ಉಳಿಸಿ

ಬೆಂಗಳೂರು: ಎಥೆನಾಲ್ ಇಂಧನವನ್ನು ಬಳಸುವ ಮೂಲಕ ಪರಿಸರವನ್ನು ಉಳಿಸಬೇಕೆಂದು ಬಿಎಸ್‌ಡಬ್ಲ್ಯೂಎಂಎಲ್‌ನ ವ್ಯವಸ್ಥಾಪಕ ನಿರ್ದೇಶಕ ಕೆ.ಪಿ.ಪ್ರವಣಜಿತ್ ತಿಳಿಸಿದರು.

ಸಿಟಿ ಎಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜಿನ ಅಮೃತ ಮಹೋತ್ಸವದ ಅಂಗವಾಗಿ ಆಯೋಜಿಸಲಾಗಿದ್ದ ವಿಚಾರ ಸಂಕಿರಣದಲ್ಲಿ ಮಾತನಾಡಿದ ಅವರು, ದೇಶದಲ್ಲಿ ಇಂಧನ ಕೊರತೆಯಾಗುತ್ತಿದ್ದು ಈ ವೇಳೆ ಎಥೆನಾಲ್ ಇಂಧನವನ್ನು ಹೆಚ್ಚುಹೆಚ್ಚು ಬಳಸುವ ಮೂಲಕ ಇಂಧನದ ಮೇಲಿನ ಅವಲಂಬನೆ

ಕಡಿಮೆಯಾಗಲಿದೆ ಎಂದು ತಿಳಿಸಿದರು.

ವಿದ್ಯಾರ್ಥಿಗಳು ನಮ್ಮಲ್ಲಿ ಇಂಧನ ಮಾತ್ರವಲ್ಲದೆ ಘನತ್ಯಾಜ್ಯ ವಿಲೇವಾರಿ ಬಗ್ಗೆ ಯೋಚಿಸಬೇಕು. ಇಂದು ಕರ್ನಾಟಕದಲ್ಲಿ ಘನತ್ಯಾಜ್ಯ ವಿಲೇವಾರಿ ದೊಡ್ಡ ಸಮಸ್ಯೆಯಾಗಿದ್ದು ವಿದ್ಯಾರ್ಥಿಗಳು ಇದಕ್ಕೆ ಪರಿಹಾರ ಕಂಡುಕೊಳ್ಳಬೇಕೆಂದು ತಿಳಿಸಿದರು.

ಈ ವೇಳೆ ಸಿಟಿ ಕಾಲೇಜಿನ ಅಧ್ಯಕ್ಷ ಡಾ.ಕೆ. ಆರ್.ಪರಮಹಂಸ, ಪ್ರಾಂಶುಪಾಲ ಡಾ.ತಿಪ್ಪೇಸ್ವಾಮಿ, ಎಚ್‌ಓಡಿ ಡಾ.ಸೌಮ್ಯ, ಉಪಪ್ರಾಂಶುಪಾಲ ಡಾ.ನಾರಾಯಣಸ್ವಾಮಿ ಮತ್ತಿತರರಿದ್ದರು.

Mr. Madan, CEO, Cyber Eye Academy, Bengaluru

He is a Cyber Security professional with over 5 years of experience in the field. Currently, He hold the position of the founder at Cyber Eye Academy and Micro Mind Solution, dedicated platforms aimed at educating students in Cyber Security for their careers. Cyber Eye Academy is a leading platform in the realm of Cyber Security education, committed to equipping individuals with the necessary skills and knowledge to thrive in the dynamic landscape of cybersecurity. Established by Madan M, a seasoned professional with over 5 years of experience in the field, Cyber Eye Academy aims to bridge the gap between industry demands and the aspirations of cybersecurity enthusiasts.

The schedule of the FDP was as below:

Inauguration:

Date: 11th December 2023

Venue: CSE Seminar Hall, Department of CSE, City Engineering College.

The Faculty Development Program on “COMPUTATIONAL INTELLIGENCE FOR CYBERNETICS/CRIMINAL LAWS & ITS APPLICATION IN FORENSIC SCIENCE” was inaugurated on 11th December 2023 at **CSE Seminar Hall**, hosted by the **Department of CSE** at **City Engineering College**, Bengaluru. This program was organized to enhance the knowledge and skills of the faculty and postgraduate scholars in the field of Cybernetics, Criminal Laws and Forensic Science. Participants: A total of 50 participants, including faculty members and postgraduate scholars, attended the inauguration ceremony.

Dignitaries:

Dr . M A Paul - Associate Director, CBPO, ISRO HQ Center, Bengaluru

Dr H N Thippeswamy - Principal, CEC

Dr. Narayana Swamy - Vice Principal, CEC.

Mr. Sathish Hande - Administrative officer, CEC

Dr. Sowmya Naik P T - HOD, Dept. of CSE

Dr. Y S Kumaraswamy - FDP Program Coordinator

The ceremony commenced with the lighting of the traditional lamp, symbolizing the dispelling of darkness and the acquisition of knowledge. The dignitaries were welcomed with Plant samplings, signifying the warmth of the institution's hospitality.

Dr .M A Paul extended his appreciation for the initiative, highlighting the importance role of computational intelligence in enhancing forensic science capabilities, Addressing cybercrime challenges. He explained about how scientists of ISRO where successful in landing Chandrayana 3 and also future projects of ISRO.

Dr .H N Thippeswamy - Principal, CEC, emphasized the role of faculty development programs in fostering innovation and growth. He encouraged participants to make the most of the program and stay updated with the latest developments in the field.

Dr. Sowmya Naik P T - HOD, Dept. of CSE, shared insights into the program's curriculum and objectives.

Dr. Y S Kumaraswamy - FDP Program Coordinator, provided an overview of the program's structure and schedules. He expressed his gratitude to the dignitaries and participants for their involvement and support.

The dignitaries' speeches were informative and inspiring, setting the tone for the upcoming faculty development program. The program's agenda, including theory sessions and practical sessions, was outlined, ensuring that all participants were aware of the upcoming activities. The inauguration ceremony concluded with a vote of thanks to all the dignitaries, participants, and organizers.

Day 1:

Session 1:

Resource Person: Dr. N Ranganath, Chairman & Managing Director, E I Technologies Pvt. Ltd, Bengaluru.

Topic: “How Vigilant Professionals Should Be During Investigation, Design & Construction to Avoid Legal Proceedings? - A Case Study with Respect to Solar Projects”.

Key points:

- The establishment of solar power plants, including the creation of large-scale solar parks, is considered a viable option to meet the rising energy demand in India.
- There are several challenges in implementing solar power projects, requiring careful consideration of factors such as time planning, design, and project execution.
- The importance of field professionals paying attention to critical factors at all stages, highlighting time planning, design, and project execution as crucial elements that demand careful consideration.
- The lack of vigilance by professionals throughout the project stages—Investigations, Design, and Construction—has been a significant setback for state-of-the-art solar projects.

The lecture was well-received by the participants, They could explore the specific challenges mentioned and delve into possible solutions, contributing to the academic discourse on large-scale solar projects.

Session 2:

Resource Person: Dr. Gnanaprakasam T, Associate Prof., Dept. of CSE-Cyber Security, Jain Deemed to be University, Bengaluru

Topic: “Cyber Security – Social Engineering attacks and prevention”

Key Points:

- Introduces the concept of social engineering, emphasizes the prevalence of internet use, recognizes technological advancements.
- Social engineering attacks often involve real communication between the attacker and the

target.

- Social engineering attacks typically involve convincing the user to compromise rather than forcefully breaking into the system.

The primary objective of the session was to educate users on how to avoid data breaches, indicating a proactive approach to cybersecurity.

Day 2:

Session 1:

Resource Person: Dr. Sapna S, Professor and Head, School. of Law, Christ University, Bengaluru

Topic: “Forensic DNA: Science & the law”

Key points:

- Forensic DNA analysis serves as a crucial intersection of science and law, leveraging the unique genetic code inherent in each individual's DNA to provide critical evidence in criminal investigations.
- Techniques like PCR and STR analysis identify and profile specific DNA regions.
- Meticulous collection and preservation procedures, along with DNA databases, support case resolution.
- Challenges include potential contamination, privacy concerns, human error, and evolving genetic technologies, necessitating ongoing scrutiny and adherence to ethical and legal standards for the integrity of justice systems worldwide.

Session 2:

Resource Person: Dr. Prakash, Director, AMC Gorup of Institutions, AMCEC, Bengaluru

Topic: “NEP-2020/Importance of UHV in Higher Education”

Key points:

- The NEP 2020, a draft guideline for education policy in the country.
- The NEP emphasizes holistic development and value-based education, aiming to instill Universal Human Values (UHV) across various disciplines from engineering and technology to literature, science, and arts.
- AICTE's initiatives include the incorporation of UHV courses into academic curricula, ensuring that the principles of universal human values are woven into the educational fabric at various levels.
- At the institutional level, there is a concerted effort to implement value-based education through programs such as Student Induction Programs (SIP) and Faculty Development Programs, emphasizing the transformative role education can play in fostering universal human values.

Session 3:

Resource Person: Dr. Zubin Philip, CHRIST (Deemed to be University) Bangaluru.

Topic: Forensic and Investigative Sciences Crime Scene Investigation & Cyber Crime

Key points:

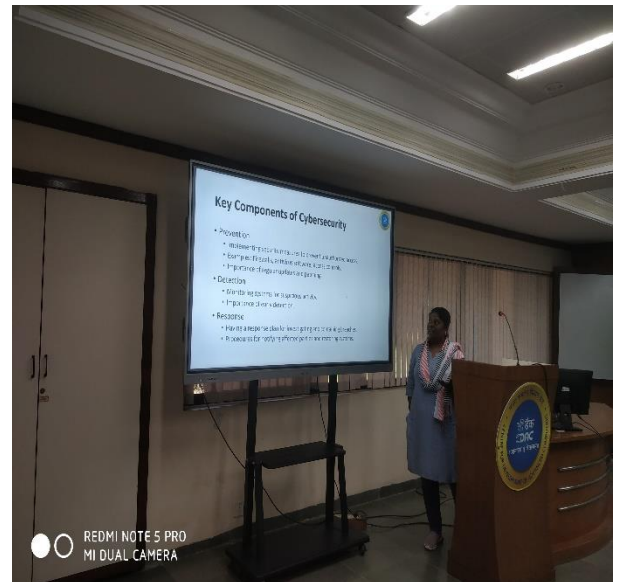

- Cyber and forensic investigation and different types of Cybercrimes in India.
- Both Crime Scene Investigation and Cyber Crime Investigation play pivotal roles in modern forensic science.
- Cyber Forensic challenges and solutions.

Day 3:

Industrial visit to C-DAC

1. To comprehend C-DAC's role in advancing computing technologies.
2. To learn more about the development and research initiatives of CDAC.
3. To investigate the C-DAC's facilities and infrastructure.
4. To converse with specialists and professionals of CDAC.

Day 4:

Session 1:

Resource Person: N. Vijay Shankar Nagaraj Rao, Cyber Law and Cyber Governance Consultant., Bengaluru

Topic: “Cyber Laws, Data Protection Laws and Neuro Rights”

Key points:

- Cyber laws are legal frameworks governing activities in cyberspace. They address crimes such as hacking, online fraud, and cyberbullying.
- Data protection laws are designed to safeguard individuals' privacy and regulate the handling of personal information.
- Neuro rights pertain to the ethical and legal considerations surrounding advancements in neuroscience and neurotechnology.
- cyber laws establish legal frameworks for digital activities, data protection laws safeguard personal information in the digital age, and neuro rights address ethical and legal considerations arising from advancements in neuroscience and neurotechnology.

Session 2:

Resource Person: Dr. Shanta Kumar B. Patil, Professor & HOD, Sai Vidya Institute of Technology, Bengaluru

Topic: “Cyber security threats at infrastructure levels in Cloud Computing.”

Key points:

- In the context of cloud computing, infrastructure cyber threats at the network level present diverse challenges that necessitate careful attention.
- Distributed Denial of Service (DDoS) attacks pose a substantial risk, requiring collaboration between cloud service providers and users to implement effective mitigation strategies such as traffic filtering and load balancing.
- Regular updates to security measures and staying abreast of emerging threats are essential to ensure the resilience and integrity of cloud-based infrastructures.

Day 5:

Session 1:

Resource Person: Dr. A Mahesh, Professor, Dept. of CSE, Sai Ram College of Engineering, Bengaluru

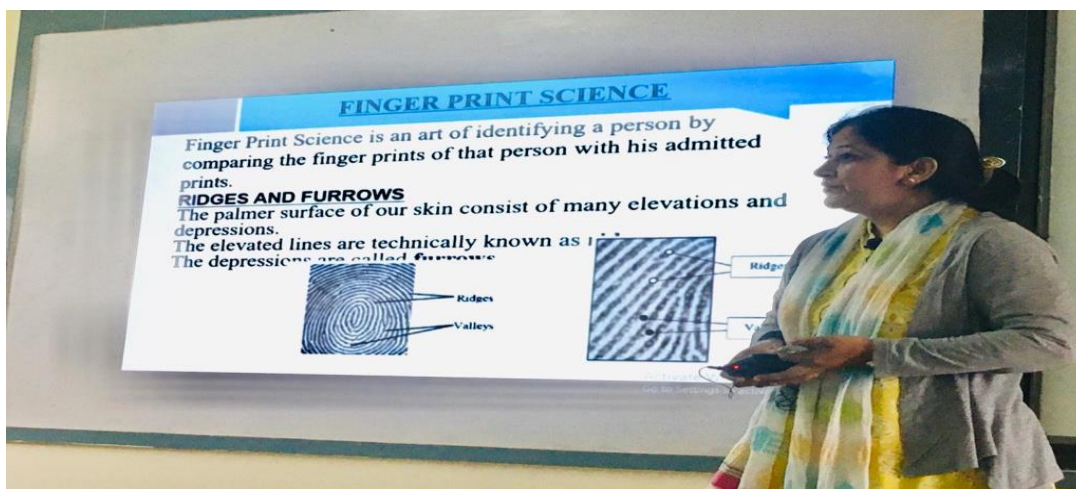

Topic: “Optimized deep learning techniques for cyber-Forensic”

- The dark web is the hidden collective of internet sites only accessible by a specialized web browser.
- Hypervisor security refers to the measures taken to protect the hypervisor and the VMs it manages from potential security threats. Below are some key aspects of hypervisor security.
- Best Practices for Hypervisor Security.

Session 2:

Resource Person: Mr. Madan, CEO, Cyber Eye Academy.

Topic: Hands on session on Cyber Security.

Day 6:

Valedictory Ceremony

Date: 16 December 2023

Venue: CSE Seminar Hall, Department of CSE, City Engineering College.

The valedictory ceremony of the Faculty Development Program on “**COMPUTATIONAL INTELLIGENCE FOR CYBERNETICS/CRIMINAL LAWS & ITS APPLICATION IN FORENSIC SCIENCE**” marked the culmination of an enlightening week of learning and knowledge-sharing.

Dignitaries: The ceremony was graced by the presence of esteemed dignitaries

Dr H N Thippeswamy - Principal, CEC

Dr. Narayana Swamy - Vice Principal, CEC.

Mr. Sathish Hande - Administrative officer, CEC

Dr. Sowmya Naik P T - HOD, Dept. of CSE

Dr. Y S Kumaraswamy - FDP Program Coordinator

Speeches:

Dr. Sowmya Naik P T commenced the proceedings with an insightful speech on the role of knowledge and innovation in the modern world. He emphasized the importance of continually expanding one's horizons, the fusion of academic theory with practical experience, and the invaluable role of educators in shaping the future.

Dr. Narayana Swamy delivered an inspiring address, commending the participants for their dedication and thirst for knowledge. He underscored the critical role of faculty development in an institution's growth, academic excellence, and impact on society.

Dr H N Thippeswamy expressed his appreciation for the commitment and active participation of the attendees throughout the FDP. He emphasized the significance of faculty 16 development in equipping educators to stay at the forefront of technological advancements and provide quality education

Dr. Y S Kumaraswamy the FDP Coordinator, highlighted the journey of the program and shared the achievements and successes. He encouraged the participants to apply the knowledge and insights gained during the FDP in their academic and professional roles

Each dignitary's speech was a source of inspiration, providing attendees with valuable insights and a renewed commitment to their roles as educators and researchers in the field of Cybernetics, Cyber Laws and Forensic Science.

the FDP Coordinator, delivered the vote of thanks, expressing gratitude to the dignitaries, instructors, coordinators, and participants. He emphasized the collective effort that made the FDP a resounding success, concluding by encouraging all to continue their pursuit of knowledge and to apply what they've learned in their academic and professional journeys

As the ceremony ended, participants left the venue with a sense of accomplishment and a commitment to further their contributions in Cybernetics and Forensic Science. This Faculty Development Program was a fulfilling and enlightening experience, fostering growth and innovation in the field of Cybernetics and Forensic Scienc

1.Key Principles/Practices

- Cybernetics is a field dedicated to comprehending systems through their behaviours, communication, and regulation, emphasizing these aspects over their physical characteristics.
- It encompasses theories of computing, regulation, control, self-reference, epistemology, and systems as active communicators.
- The discipline offers a meta disciplinary language, encompassing traditions like circular causality, computation theories, regulation, control, and epistemology. It also studies self-regulating devices and measurable variable relationships.

2.Application of Principles/Practices

- Cybernetics centres on comprehending and optimizing the behaviours of systems, fostering efficiency and organization across domains such as technology, social sciences, and management.
- Its practical utility extends to forensic anthropology, archaeological endeavours, and the examination of mass grave sites.
- The principles of cybernetics provide a robust framework for both understanding and shaping the behaviours of intricate systems.

3.Key Takeaways

- The study explores the length of the human body using skull size, with potential applications in forensic anthropology, archaeological work, and mass grave site examinations.
- It also highlights the importance of local anthropological type for accurate predictions.
- Cybernetics, a multidisciplinary field, focuses on communication, regulation, and understanding systems.

1. Key Learnings (Outcomes) from the FDP

- The FDP highlighted the role of computational intelligence in enhancing forensic science capabilities.
- Addressing cybercrime challenges.
- Emphasizing the importance of Universal Human Values in higher education, as outlined in the National Education Policy 2020.

2. Key Lessons (Concepts/Ideas)

- Implementing Computational Intelligence in forensic science enhances capabilities by leveraging algorithms and models from biological and natural processes.
- Enhancing cybersecurity strategies, such as risk assessment and modernization, is crucial for addressing evolving threats. Recognizing the importance of Universal Human Values in higher education promotes holistic development and societal well-being by instilling democratic principles, justice, social consciousness, and cultural values in students.

3. Implementation Plan

- The plan involves integrating computational intelligence (CI) into forensic science, addressing cybersecurity threats, and integrating Universal Human Values (UHV) into higher education.
- This includes creating a specialized training program for forensic professionals, collaborating with academic institutions and industry experts to develop a curriculum, and conducting research to explore CI's potential in solving complex forensic problems.
- Additionally, a comprehensive cybersecurity training program is implemented, focusing on best practices and integrating risk assessment and incident response planning.

Introduction:

The industrial visit to the Centre for Development of Advanced Computing (CDAC) located in Electronic City, Bangalore, was organized for the participants of **ATAL sponsored FDP on COMPUTATIONAL INTELLIGENCE FOR CUBERNETICS/CRIMINAL LAWS & ITS APPLICATIONS IN FORENSIC SCIENCE** conducted by City Engineering College, Bangalore. The visit aimed to provide students with insights into the advanced computing technologies and research activities carried out by CDAC.

Background:

CDAC, established in 1988, is a premier research and development organization under the Ministry of Electronics and Information Technology, Government of India. It plays a pivotal role in spearheading various technology initiatives and solutions in the field of advanced computing, supercomputing, and information technology.

Objectives of the Visit:

The key objectives of the industrial visit to CDAC were as follows:

- To understand CDAC's role in advancing computing technologies.
- To gain insights into CDAC's research and development projects.
- To explore the infrastructure and facilities at CDAC.
- To interact with experts and professionals working at CDAC.

Journey and Arrival:

The visit commenced with faculty members traveling to CDAC, Electronic City, Bangalore. Upon arrival, the group was warmly welcomed by CDAC representatives who provided an overview of the organization and its contributions to the field of advanced computing.

Infrastructure and Facilities:

CDAC's campus in Electronic City boasts state-of-the-art infrastructure and facilities. The group was given a guided tour of the various laboratories, research centres, and development areas. The facilities included advanced computing clusters, high-performance computing (HPC) systems, networking labs, and specialized testing environments.

Research and Development Projects:

The visit included informative sessions on Cyber Security by Dr. Lavanya. The students had the opportunity to learn about cutting-edge technologies, of cybersecurity, and how CDAC is actively contributing to this domain.

Conclusion:

The industrial visit to CDAC, Electronic City, Bangalore, proved to be highly educational and enriching. The participants gained a deep understanding of advanced computing technologies, witnessed the practical applications of research, and interacted with industry experts. The visit not only complemented the academic curriculum but also inspired faculties to explore career opportunities in the rapidly evolving field of advanced computing.

Mr. Madan, CEO, CyberEye Academy, Bengaluru.

He is a Cyber Security professional with over 5 years of experience in the field. Currently, He hold the position of the founder at Cyber Eye Academy and Micro Mind Solution, dedicated platforms aimed at educating students in Cyber Security for their careers. Cyber Eye Academy is a leading platform in the realm of Cyber Security education, committed to equipping individuals with the necessary skills and knowledge to thrive in the dynamic landscape of cybersecurity. Established by Madan M, a seasoned professional with over 5 years of experience in the field, Cyber Eye Academy aims to bridge the gap between industry demands and the aspirations of cybersecurity enthusiasts.

Day 1: 04/12/2023 Monday

The inauguration was held on 4th December 2023 at 10:00 am in CSE seminar hall by Chief Guest **Padmashree Dr. P S Goel**, Former Director, URSC, Bengaluru, former Director, Ministry of Earth Science, Government of India, brought a wealth of experience and knowledge to the FDP.

The event began with a warm welcome address by **Dr. Sowmya Naik P T**, Professor and HOD, Dept. of CSE. As the Head of the Department and the FDP Program Coordinator, she set the tone for the day, expressing gratitude to Director, ATAL Academy and Management. She formally welcomed all dignitaries, all Dept. HOD's, the faculties and the esteemed participants.

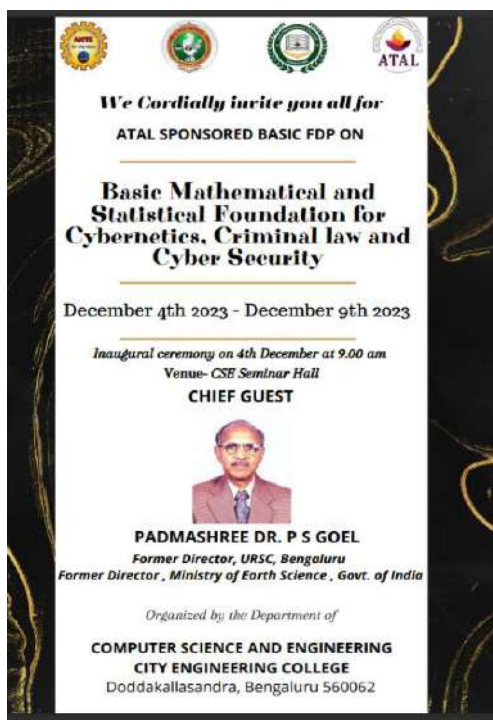

Following the welcome address, **Prof. Ambika P R**, Assistant Professor in the Department of CSE and the FDP Program Co-Coordinator, provided insights into the various initiatives by ATAL Academy and structure of the Faculty Development Program. Her engaging presentation laid the foundation for the one-week FDP sessions.

The Chief Guest then delivered an insightful address, sharing valuable insights and experiences from his distinguished career. PADMASHREE Dr. P S GOEL's words resonated with the audience, offering inspiration and guidance to the faculty members present.

The event continued with addresses from distinguished guests. **Dr. Narayana Swamy**, the Vice Principal of CEC and **Mr. Sathish Hande**, the Administrative Officer of CEC.

Dr. H N Thippeswamy, the Principal of CEC, delivered presidential remarks and expressed his pride in the department's initiatives and the collective commitment to excellence in education. **Prof. Vibhavi R N**, Assistant Professor, proposed the Vote of Thanks expressing gratitude to all the speakers, participants, and organizers for making the event a success.

The FDP was poised to be a valuable platform for continuous learning and professional growth, fostering a community of educators dedicated to staying abreast of the latest advancements in the field cybernetics and forensic science.

Some screenshots of the inaugural function are as below:

Session 1:

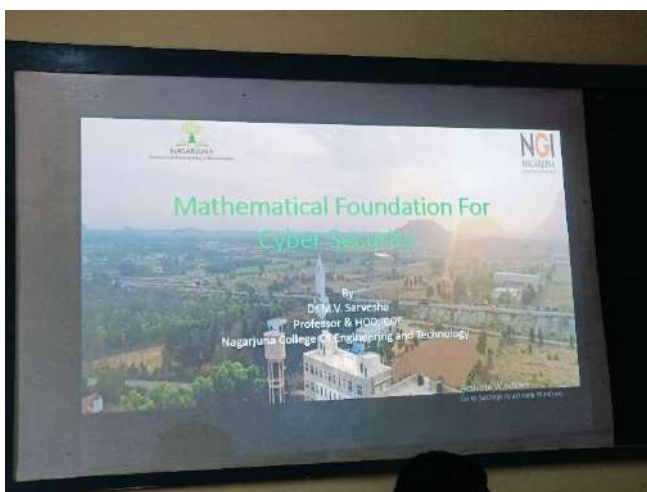

Topic: “Introduction to mathematics and statistics in cybernetics, criminal laws and cybersecurity”

Resource Person: Dr M V Sarvesha, Professor & HOD, NCET, Bengaluru.

Key Points Covered in the session:

- Categories of Cyber crime
- Types of Cyber crime
- Types of Security tools
- Fundamental Mathematical Tools
- Mathematical Models for cyber security

Few screen shots from the session:

Session 2:

Topic: “Forensic Science and Law: Test of Relevancy for court Admissibility”

Resource Person: Dr. Sapna S, Professor & HOD, Dept. of Law, Christ University, Bengaluru.

Key Points Covered in the session:

- Introduction to Forensic science
- Relevance to the Case
- Reliability of the Methodology
- Error Rates

- Chain of Custody
- Relevance vs. Prejudice
- Legal Standards and Precedents
- New and Emerging Technologies

Few screen shots from the session:

Day 2:

Session 3:

Topic: “Data driven defence in Drone Computing-Mathematics @core of cyber security”

Resource Person: Dr. S. N. Omkar, Chief Research Scientist, IISC, Bengaluru.

Key Points Covered in the session:

- Drone computing with AI
- Data-driven Security and drone computing
- Machine Learning and AI
- Encryption and Cryptography
- Predictive Analysis and network security
- Real Time application of drone computing and cyber security

Session 4:

Topic: “Cybernetics and forensic techniques for fraudulent practices abatement in Civil Engineering”

Resource Person: Dr. Shashishankar A, Professor, AMCEC, Bengaluru.

Key Points Covered in the session:

- Importance of Addressing Fraudulent Practices in Civil Engineering
- Cybernetics in Civil Engineering
- Control System in Construction and Cybernetic Applications
- Cybernetic Applications in Construction
- Forensic Techniques in Civil Engineering
- Case Studies of Forensic Investigations

Day 4:

Session 5: Topic: “Fraud detection using Federated AI”

Resource Person: Dr. P K Baruah, Professor, Sri Sathya Sai Institute of Higher Learning (SSIHL), Puttaparthi.

Key Points Covered in the session:

- Actuarial Data Science
- Quantifies Risk using probabilities
- Designs solutions to reduce impact of undesirable events
- Impact of fraud on insurance company
- Advanced fraud detection systems – Pros and Cons

Session 6: Topic: “Recent trends in cybernetics, cybersecurity and cyber forensics”

Resource Person: Dr. Ramesh Shahabdar, Professor, AMCEC, Bengaluru.

Key Points Covered in the session:

- Recent trends in Cybernetics and cybersecurity
- Cyber forensics
- Digital Forensic Automation
- Blockchain and cloud Forensics
- Machine Learning and Artificial Intelligence in cyber security

Day 4:

Session 7: Topic: “NEP Implementation-2020”

Resource Person: Dr. M N Hegde, Adjunct Professor, Dr. AIT, Bengaluru.

Key Points Covered in the session:

- National Education Policy (NEP) 2020
- Education as a tool of economic changes
- Role of a teacher in educational change
- Cybernetics in education
- Cybernetic thinking

Session 8: Topic: “Next-Gen Cybersecurity Technologies, Cybersecurity Policies”

Resource Person: Dr. Vinoth Kumar M, Associate professor, RVITM, Bangalore

Key Points Covered in the session:

- Why cybersecurity?
- Cybersecurity trends
- Next-Gen Cybersecurity
- 5G Networks, Blockchain
- AI and ML
- Quantum Computing
- Cybersecurity policies

Session 9: Topic: “Exploring Cybersecurity Threats and System Vulnerabilities”

Resource Person: Mr. Madan, CEO, CyberEye Academy, Bangalore

Key Points Covered in the session:

- Common Vulnerabilities
- Software Vulnerabilities
- Zero-Day Vulnerabilities
- Unsecured Networks
- Lack of Security Awareness

Day 5: Industrial Visit

The industrial visit to the Forensic Science Laboratories proved to be an enlightening experience, offering a comprehensive understanding of the multifaceted applications of forensic science. The presentations from diverse departments further enriched our knowledge, shedding light on the pivotal role each plays in the realm of forensic science. The presentations from various departments proved to be the cornerstone of our visit, offering invaluable insights into the breadth and depth of forensic science applications.

Each department showcased its unique contribution to the investigative process:

1. **Physics:** Explored the application of physics in analyzing trajectory and other physical aspects of crime scenes.
2. **Chemistry:** Discussed the analysis of substances, including drugs and chemicals, crucial in understanding the chemical aspects of criminal activities.
3. **Biology:** Highlighted the significance of biological evidence, with a focus on DNA analysis, in establishing identities and relationships.
4. **Narcotics:** Provided an overview of the analysis of illegal drugs and their role in criminal investigations.
5. **DNA Analysis:** Demonstrated the power of DNA profiling in identifying individuals and linking suspects to crime scenes.
6. **Toxicology:** Explored the role of toxicology in understanding the effects of drugs and poisons on the human body.
7. **Fingerprint Analysis:** Showcased the classic yet crucial technique of fingerprint examination for individual identification.
8. **Ballistics:** Illustrated the meticulous analysis of firearms, bullets, and cartridge cases to link them to specific weapons.

Day 6:

Session 10: Topic: “Mathematical foundations of cybernetics in forensics science”

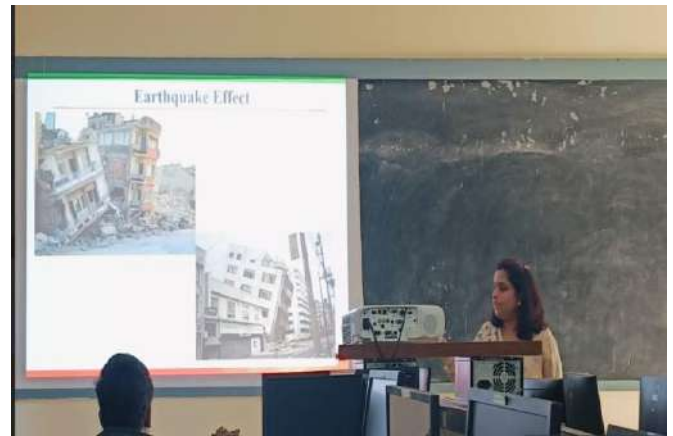

Resource Person: DR. Sivasankar S, Professor, RVITM, Bengaluru.

Key Points Covered in the session:

- Mathematics In Forensic Science
- Mathematics In Cybernetics
- Feedback Systems Enhance Investigative Processes
- Mathematical Concepts In Crime Scene Analysis
- Case Studies
- Cybernetics In Forensic Science
- Role Of Cybernetics in Forensic Science
- Future Trends and Developments

Valedictory Ceremony:

Venue: CSE Seminar Hall, Department of CSE, City Engineering College.

The valedictory ceremony of the Faculty Development Program on “BASIC MATHEMATICAL AND STATISTICAL FOUNDATION FOR CYBERNETICS CRIMINAL LAWS AND CYBERSECURITY” marked the culmination of an enlightening week of learning and knowledge-sharing.

Dignitaries: The ceremony was graced by the presence of esteemed dignitaries

Dr H N Thippeswamy - Principal, CEC

Dr. Narayana Swamy - Vice Principal, CEC.

Mr. Sathish Hande - Administrative officer, CEC

Dr. Sowmya Naik P T - HOD, Dept. of CSE, FDP Program Coordinator

The ceremony commenced with the arrival of the distinguished dignitaries. Their presence added prestige to the event and symbolized the importance of continuous learning and development in academia.

Dr. Sowmya Naik P T took the stage to express their gratitude to the participants, resource persons, and FDP organizing committee who contributed to the success of the program.

Several participants were given the opportunity to share their reflections on the FDP. They discussed the valuable insights gained, practical skills acquired, and the impact the program had on their teaching and research methodologies. The valedictory ceremony of the Faculty Development Program was a culmination of weeks of intense learning and collaboration. It marked not only the end of the program but also the beginning of a renewed commitment to excellence in teaching, research, and professional development.

Industrial Visit Report Team- 5

State Forensic Science Laboratories, Madhavara, Bengaluru

Date: 08/12/2023

The visit to the Forensic Science Laboratories was an illuminating experience that provided a thorough insight into the diverse applications of forensic science. The presentations from various departments added depth to our understanding, revealing the crucial roles each department plays in the field of forensic science.

- **Physics:** In forensic science, physics is often applied to analyze elements like trajectory in ballistics, blood splatter patterns, and other physical aspects of a crime scene.
- **Chemistry:** Forensic chemistry involves the analysis of substances such as drugs, poisons, and chemicals found at crime scenes. This is crucial in understanding the chemical aspects of a crime.
- **Biology:** Biological evidence, including DNA analysis, is a key component of forensic science. It helps in identifying individuals and establishing relationships between people.
- **Narcotics:** This department focuses on the analysis of illegal drugs, their distribution, and related criminal activities.
- **DNA Analysis:** DNA profiling is a powerful tool in forensic science for identifying individuals, establishing relationships, and linking suspects to crime scenes.
- **Toxicology:** Toxicologists study the effects of drugs and poisons on the human body. This is essential in cases involving overdose, poisoning, or suspicious deaths.
- **Fingerprint Analysis:** Fingerprint examination is a classic forensic technique used to identify individuals based on unique patterns in their fingerprints.
- **Ballistics:** Ballistic experts analyze firearms, bullets, and cartridge cases. They help link bullets or casings found at crime scenes to specific weapons.

ATAL FDP ON BASIC MATHEMATICAL AND STATISTICAL FOUNDATION FOR CYBERNETICS CRIMINAL LAWS AND CYBERSECURITY

TECHNICAL SUMMARY REPORT FOR THE JOURNAL PAPER TITLED

"A COMPREHENSIVE REVIEW STUDY OF CYBER ATTACKS AND CYBER SECURITY: EMERGING TRENDS AND RECENT DEVELOPMENTS"

This thorough investigation threads through the complexities of cybersecurity, cyberthreats, and related regulations. It begins with a thorough definition of key terminology like "cyber space," "cyber vulnerability," and "cyber threat level." The paper assesses current definitions of cyberattacks critically, pointing out their shortcomings and potential legal ramifications.

Cyber acts of all kinds, from cybercrime to cyberwarfare, are carefully investigated. The article offers a variety of definitions for cyberattacks while highlighting the importance of being exact and unambiguous while defining them. It also examines the characteristics of cyberspace dangers, clarifying the vulnerabilities and worldwide interdependencies present in cyberspace.

A thorough introduction to the idea of cyber security is provided, including methods for protecting data, networks, and information from both internal and external threats. Various aspects of cyber security are discussed, such as cloud security, network security, and application security. The importance of having a comprehensive cyber-security policy that addresses corporate, individual, and national levels is emphasized in the document.

The investigation identifies obstacles to the successful implementation of cyber-security measures, including variations in policy interpretation, a lack of competence, and conflicts between security and performance objectives. In order to properly address the many problems faced by cybersecurity, the document's conclusion emphasizes the dynamic nature of cyber threats, the need for nuanced awareness, and the value of worldwide collaboration. All things considered, this investigation provides a thorough and perceptive grasp of the complex realm of cyber dangers and the necessary countermeasures.

1. Identify 3 Key Learnings (Outcomes) from the FDP

- * Forensic science application to investigate and solve crimes, contributing valuable evidence to the legal system.
- * Math plays a critical role in cybernetics, as it provides a rigorous and systematic way to model and analyze complex systems.
- * Foundational understanding of mathematical and statistical principles relevant to cybernetics.

2. List 3 Key Lessons (Concepts/Ideas) that you will implement

- * One of the key applications of math in cybernetics is in control theory, which deals with the design and analysis of feedback systems.
- * Feedback system to enhance investigative processes
- * Explore the intersection of mathematical and statistical principles.

3. Share an Implementation Plan for your 3 Key Lessons (Concepts)

- * Mathematical Concepts in Crime Scene Analysis.
- * Use Algebra to implement forensic applications.
- * Implement DNA Sequencing in Forensic Science Analysis.

CIRCULAR

Dear Students,

We are thrilled to announce an upcoming workshop exclusively for CSE students on **Effective Research Paper Writing**, led by **Dr. S N Omkar**, Chief Research Scientist in Aerospace Engineering at IISC. The event is scheduled for **5th December 2023 at 12:30 PM** in the **CSE Seminar Hall**. Dr.Omkar will guide you through the essential steps of writing a well-structured and research-driven paper, including how to present clear, original arguments and demonstrate critical thinking. You will also learn proper citation practices, tips for refining your paper, and ways to make meaningful academic contributions. We encourage you to attend this valuable session.

BRIEF INFORMATION ABOUT THE ACTIVITY

TITLE OF THE ACTIVITY	“Effective Research paper writing”
RESOURCE PERSON DETAILS	Dr. S N Omkar, Chief Research Scientist ,Aerospace Engineering, IISC.
OBJECTIVE	<ul style="list-style-type: none">• Structuring a research paper• Writing techniques and best practices• Tips for effective communication of research findings• Ethical considerations in research publication
EVENT DETAILS	The session focused on essential techniques for writing a well-structured research paper, including presenting clear, original arguments and demonstrating critical thinking. Dr. Omkar provided valuable insights on refining the final draft, ensuring proper citation practices, and making meaningful contributions to the academic community. The workshop concluded with a Q&A session, where students had the opportunity to seek specific guidance on their research writing.
OUTCOMES	<ul style="list-style-type: none">• Enhanced Understanding of Research Paper Structure: Participants gained a thorough understanding of the essential components and structure of a research paper.• Awareness of Ethical Considerations: The workshop raised awareness about ethical issues in research publication, such as plagiarism, authorship guidelines, and the peer review process.• Engagement and Networking: The interactive nature of the workshop encouraged active participation and facilitated networking among participants.• Inspiration and Motivation: Participants were inspired by Dr. S N Omkar's expertise and insights into research paper writing.

About the College

City Engineering College, Bangalore affiliated to Visvesvaraya Technological University (VTU) is centrally located in Bangalore. The College has expanded over the last 20 years with sophisticated infrastructure as a part of the Institution's commitment to provide higher quality education in the area of Engineering. City Engineering College is known for its academic excellence, friendly welcoming atmosphere and community spirit.

VISION
Making Remarkable Contribution by Disseminating Knowledge on Emerging Trends in Engineering and Technology through various Programmes, Innovation and Research so as to Excel in Quality both at National and International level and to provide Career Guidance & Training for Employment.

MISSION
M1. To encourage Knowledge Acquisition and Foster Innovation & Research.
M2. To Prepare Students for Immediate Employment, leading to Technological and Socio-economical growth.
M3. To Provide Guidance for a Productive Career under various programmes.

About the Department

The department of AI & ML was established in the year 2020 with an intake of 60. This is an undergraduate program and has been approved by AICTE, New Delhi and is affiliated to VTU.

The department has a comprehensive curriculum on topics related to software and hardware with an emphasis on theoretical and practical learning.

Department has well-equipped laboratories supported by high-speed internet and wireless network. The AI & ML curriculum is tailored such that the students will be able to design, create and implement intelligent software applications to solve real-world problems. The faculty members are highly qualified, experienced and dedicated.

Department Vision
To achieve excellent standards of learning environment, to meet the needs of industry using the latest tools, to serve the greater cause of society, and to empower students with a high degree of technical and practical skills.

Mission

- 1) To educate students with problem-solving, and analytical skills in the area of AI & ML for a successful career.
- 2) To encourage self-learning skills to carry out research, and innovation and pursue higher studies.
- 3) To impart quality and value-based education and contribute towards the innovation of computing expert systems and to apply new advancements in high-performance computing.
