	<p>Professor and HOD, Dept of ISE, inaugurated the program and also addressed students on the importance of conducting such events.</p> <p>Students in the final semesters of CEC exhibited about 48 projects and posters. Projects displayed were mainly explored in the broad areas of Robotics, AI and ML-based projects, Applications of renewable energy, Smart wearable devices, IOT, and many more. The project exhibition showcased many exciting concepts and ideas which can be further developed to solve engineering problems better and develop further as a product. Tech Tarang-2024, the intercollegiate project exhibition held on May 9, 2024, showcased a total of 48 innovative projects. The event served as a platform for both in-house student teams and teams from other colleges across Bangalore to exhibit their technological prowess and creativity.</p>
<p style="text-align: center;">OUTCOMES</p>	<p>On successful completion of the Tech Tarang-24 Project exhibition, the students will be able to:</p> <ul style="list-style-type: none"> • Extend their learning experience by designing projects and providing them with opportunities to enhance their CV and employability. • Demonstrate a sound technical knowledge of their selected project topic. • Undertake problem identification,

BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/SUBJECT OF THE ACTIVITY	Front End Technologies
OBJECTIVE	Expert Speakers: Gain insights from industry experts and experienced professionals in front-end development.
METHODOLOGY	Hands-On Sessions: Engage in practical coding sessions, building real-world applications. Interactive Discussions: Participate in Q&A sessions and collaborative group discussions.
OUTCOMES	The workshop yielded several outcomes for the participants: Understanding Core Concepts: Gain a solid foundation in HTML, CSS, and JavaScript. Comprehend the structure and semantics of HTML5. Master CSS3 for styling and layout techniques. Modern JavaScript Frameworks and Libraries: Learn the fundamentals and advanced features of frameworks like React, Angular, or Vue.js. Understand the benefits and use cases for different frameworks. Build interactive and dynamic user interfaces. Tooling and Workflow: Get acquainted with modern development tools such as Webpack, Babel, and npm. Learn about version control

BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/ SUBJECT OF THE ACTIVITY	Industry Insights: Bridging Software Engineering and Project Management
OBJECTIVE	Understanding the Inter connection: Explain how software engineering and project management are inter connected. Highlight the importance of integrating both disciplines for successful project outcomes.
METHODOLOGY	Industry Trends and Best Practices: Share current trends and best practices in the software industry. Provide real-world examples of successful software projects and the role of project management in them. Project Life cycle: Explain the different phases of a software project lifecycle. Illustrate how project management methodologies (e.g., Agile, Scrum, Waterfall) are applied in these phases.

OUTCOMES

The guest lecture yielded several outcomes for the participants:

Enhanced Understanding of Interconnection:

Attendees gained a thorough understanding of how software engineering and project management practices intersect and complement each other to ensure the successful delivery of software projects.

Updated Knowledge of Industry Trends:

Participants were informed about the latest trends and innovations in software engineering and project management, including emerging methodologies, frameworks, and technologies. The lecture provided examples of how these trends are being applied in real-world projects, helping attendees to understand their practical implications.

Comprehension of the Project Life cycle:

Attendees understood the different phases of a software project lifecycle (initiation, planning, execution, monitoring, and closure) and how methodologies like Agile, Scrum, and Waterfall are applied.

Lessons from Case Studies: Case studies of successful projects will illustrate best practices and effective strategies that led to their success. Analysis of failed projects will provide insights into common pitfalls and mistakes, offering valuable lessons on what to avoid and how to recover from setbacks.

BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/SUBJECT OF THE ACTIVITY	DBMS Design and Development
OBJECTIVE	The primary objectives of the "DBMS Design and Development" workshop were to equip participants with essential skills and knowledge on Database design and implementation using SQL programming. The course aimed to cover fundamental concepts, security in database and basic knowledge of SQL injection used in MYSQL software.
METHODOLGY	To provide a sound introduction to the discipline of database management as a subject in its own right, rather than as a compendium of techniques and product-specific tools. To familiarize the participant with the nuances of database environments towards an information-oriented data-processing oriented framework. To give a good formal foundation on the relational model of data. To present SQL and procedural interfaces to SQL comprehensively. To give an introduction to systematic database design approaches covering conceptual design, logical design and an
