VISVESVARAYA TECHNOLOGICAL UNIVERSITY

VISION

To become an outstanding Technological University at the cutting edge of Science and Technology that produces world class Knowledge-delivery, Research, Extension and Leadership in Technology innovation for Industry and Society.

MISSION

M1: To plan the development of technical education, to establish value-based and need-based education and training in engineering.

M2: Technology, with a view to generate qualified and competent manpower, responsive to technological and societal needs.

CITY ENGINEERING COLLEGE

Approved by AICTE New Delhi & Affiliated by VTU, Belagavi

CITY ENGINEERING COLLEGE

VISION

Making Remarkable Contribution by Disseminating Knowledge on Emerging Trends in Engineering and Technology through various Programs, Innovation and Research so as to Excel in Quality both at National and International level and to provide Career Guidance & Training for Employment.

MISSION

M1: To encourage Knowledge Acquisition and Foster Innovation & Research.

M2: To Prepare Students for Immediate Employment, leading to Technological and Social-Economic growth

M3: To Provide Guidance for a Productive Career under various programmers.

QUALITY POLICY

The Institution believes in providing High Quality Education to the Students using necessary quality bench marks in the area of Faculty Recruitment. Development and students learning process through sustained efforts.

PROGRAM OUTCOMES (POs)

PO1 – Engineering knowledge: Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

PO2 – Problem analysis: Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

CITY ENGINEERING COLLEGE

Approved by AICTE New Delhi & Affiliated by VTU, Belagavi
Doddakallasandra, Off Kanakapura Main Road,
next to Gokulam Apartment, Bangalore - 560 062.

PO3 – Design/development of solutions: Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

PO4 – Conduct investigations of complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO5 – Modern tool usage: Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations

PO6 – The engineer and society: Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

PO7 – Environment and sustainability: Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development

PO8 – Ethics: Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO9 – Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams & multidisciplinary settings.

PO10 – Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions

CITY ENGINEERING COLLEGE

Approved by AICTE New Delhi & Affiliated by VTU, Belagavi

DEPARTMENT OF INTERNAL QUALITY ASSURANCE CELL

VISION

The Internal Quality Assurance Cell (IQAC), established in accordance with NAAC guidelines, aims to work towards quality sustenance and enhancement of the academic and administrative performance of City Engineering College.

MISSION

M1: Developing a system for conscious, consistent, and catalytic improvement in the performance of its principal stakeholders, including staff and students.

M2: Promoting innovative practices that continually improve the effectiveness of learning experiences for students and staff.

M3: Upholding the goals of quality enhancement and sustenance by organizing various activities and programs on campus.

M4: Promoting a learner centric environment for students and staff that fosters the mission and vision of City Engineering College

PROGRAM EDUCATION OUTCOMES(PEO)

PEO1: Development and application of quality parameters for various academic and administrative activities of the institution.

PEO2: Dissemination of information on the various quality parameters of higher education.

CITY ENGINEERING COLLEGE

PEO3: Preparation of the annual quality assurance report to be submitted to NAAC based on the quality parameters.

PROGRAM SPECIFIC OUTCOMES(PSO)

PSO1: A heightened level of clarity and focus in institutional functioning towards quality enhancement and facilitate internalization of the quality culture.

PSO2: Acting as a change agent in the institution.

PSO3: Enhancement and integration among the various activities of the institution of many good practices.

DEPARTMENT OF ARTIFICIAL INTELLIGENCE AND MACHINE LEARNING

VISION

To achieve excellent standards of learning environment, to meet the needs of industry using the latest tools, to serve the greater cause of society, and to empower students with a high degree of technical and practical skills.

MISSION

M1: To educate students with problem-solving, and analytical skills in the area of AI & ML for a successful career.

M2: To encourage self-learning skills to carry out research, and innovation and pursue higher studies.

M3: To impart quality and value-based education and contribute towards the innovation of computing expert systems and to apply new advancements in high-performance computing.

PROGRAM EDUCATION OUTCOMES(PEO)

PEO1: To equip graduates with a strong computer science engineering principles, artificial intelligence and machine learning knowledge and enabling them to adapt to emerging technologies.

PEO2: To cultivate graduates' capacity to analyze complex Computer Science Engineering and allied area problems, connecting theory to implementations, and promoting research oriented problem-solving skills.

PEO3: To empower graduates for a successful career or entrepreneurship in computer science and allied area, with a commitment to learning, ethics, and societal responsibility.

VISION

To Impart Knowledge and Excel in training undergraduate students to become Successful Civil Engineers with high Quality and to play a responsible role in the prosperity of society. To Encourage involvement of students and faculty in Research and Community services.

MISSION

M1: To provide High Quality technical education and training to students for a successful career in Civil Engineering and to provide best service to the human civilization.

M2: To Encourage Innovative Projects, Research and CSR activities.

PROGRAM EDUCATION OUTCOMES (PEO)

PEO1: Imparting knowledge in CIVIL Engineering in Analysis and Design of Structural systems and Sub-Structures in a Sustainable & Eco-friendly manner.

PEO2: Infuse clarity and understanding of the basic principles of various subjects of CIVIL Engineering vis-a-vis skill development such as software tools, design and sustainable construction practices enabled by Industry Institute Interaction.

To produce Class Engineers for converting global challenges into Opportunities through Value Embedded Quality Education in Electronics & Communication Engineering.

MISSION

M1: To achieve Academic Excellence in Electronics and Communication Engineering through Teaching, Innovation and Research.

M2: To enable students to develop into outstanding professionals with high Quality standards to face the emerging challenges of the next millennium.

M3: To provide career Guidance and Placement Opportunities in the Core and allied areas.

PROGRAM EDUCATION OUTCOMES(PEO)

After the graduation, the students will have the ability to:

PEO1: Analyze, design and implement solutions in Electronics and Communication Engineering and to adapt for the changes in technology through innovative learning.

PEO2: To Impart professionalism through Industry Projects and Internships.

PEO3: Work with respect for societal values and concern for environment in implementing engineering solutions.

AMC - CITY - BROOKLYN NPS - CAMBRIDGE INSTITUTIONS

I take great pride in introducing AMC-CITY Group of Institutions which has created a strong niche with its long existence of 35 years in the academic domain of Bangalore by sheer hard work, focused attention and dedication in respective disciplines of management, engineering, Science and Hospitality. The quality support of the students, teaching and non-teaching staff, the institution has shown exemplified growth.

Engineers play a most vital and important role in the nation building. They create new investment opportunities using best engineering technologies to make human life more comfortable, secure and productive. The knowledge that students gain will imbibe the technical skills and learning to apply will be the major contributions to parents, to society and to the nation at large.

It gives me great satisfaction that CITY ENGINEERING COLLEGE is progressing in all its endeavors towards the overall development and personality of the budding engineers.

The quality support of the students, teaching and non-teaching staff, the institution has shown exemplified growth. The blending and growing together of diverse academic disciplines have provided the students an added advantage of an exposure to the distinct CEC life with freedom of thought and expression to innovate. The competitive outlook and the grass-root connectivity provides the CEC campus a unique position in the world of academia.

The organic growth of City Engineering College has placed multi-dimensional challenges and opportunities to produce professionals who can operate efficiently across the world. With all these challenges and opportunities, City Engineering College is the best choice for the students of learning mind.

The greatest responsibility that has been carried by AMC-CITY Group of Institutions with hope and confidence will deliver the right outcome to students, faculty members, parents and the right portfolio to the National pride.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

VALUE ADDED COURSE

A five-day Value-Added Course on **Elite Aptitude Enhancement: Mastering Verbal and Non-Verbal Skills** was organized by the Department of Computer Science and Engineering from 6th to 11th May 2024 for Computer Science and Engineering students in the seminar hall by **Mr. Prudhvi Raj, Freelance aptitude and soft skills trainer.**

The event began with a formal inaugural function. **Dr. S Karunakara, Principal CEC, Dr. Narayanaswamy, Vice Principal and HOD of CSE** were present during the inauguration. The program began by seeking the blessings of Almighty with invocation and lighting of lamp. Principal advised the students to utilize the benefits of the course completely. **Dr. Sowmya Naik** welcomed the resource person and gave a course overview. Later the session was handed over to the speaker.

FIG 2: COURSE INTRODUCTION BY SPEAKER

On the first day, the course commenced with an introduction to its objectives, structure, and the significance of mastering verbal and non-verbal skills. Participants engaged in discussions to understand the expectations and benefits of the course. Following this, a comprehensive self-

assessment was conducted to gauge participants' current skill levels, utilizing diagnostic tests and goal-setting exercises to establish personalized learning targets.

Day 2:

The focus on Day 2 was on enhancing participants' vocabulary and grammar skills. Effective strategies for expanding vocabulary were introduced, including mnemonic techniques and contextual learning. Practical exercises such as creating flashcards and applying newly learned words in sentences reinforced these strategies.

Day 3:

Day 3 centered on developing active reading and critical thinking abilities. Participants were guided through techniques for skimming, scanning, and summarizing texts to enhance reading comprehension. They tackled various types of texts, analyzing content critically and answering comprehension questions to deepen their understanding. The session also included exercises in argument analysis and debate simulations, fostering participants' ability to evaluate evidence and construct logical arguments.

Day 4:

The fourth day focused on honing logical reasoning and spatial awareness skills. Participants engaged in challenging logic puzzles and exercises designed to identify patterns and relationships. This was complemented by activities aimed at improving spatial visualization and manipulation, including 3D modeling tasks and geometric puzzles. These sessions aimed to strengthen participants' problem-solving capabilities and spatial reasoning abilities.

Day 5:

On the final day, the emphasis was on data interpretation and practical application of acquired skills. Participants learned to interpret and analyze data from graphs and charts, applying statistical concepts such as mean and median. Practical exercises and real-world applications provided opportunities for participants to integrate their verbal and non-verbal skills. The day concluded with mock tests simulating real-world assessments, providing valuable feedback and preparing participants for future challenges.

Throughout the intensive 5-day course, participants engaged in a structured and rigorous curriculum that effectively enhanced their verbal and non-verbal aptitude skills. By combining theoretical learning with practical application, the course equipped participants with essential skills for academic success, professional development, and standardized test preparation.

BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/ SUBJECT OF THE ACTIVITY	"Engineering Futures: Unlocking Opportunities through German Language Proficiency."
OBJECTIVE	The globalized nature of the engineering profession necessitates multilingual capabilities to foster better communication, collaboration, and career opportunities. German, being one of the major languages in the engineering world, offers numerous advantages to engineering students. In this seminar the students learnt the importance of learning German considering various professional, educational, and cultural aspects.
METHODOLGY	The following areas were concentrated and explained well by the speaker Mr. Rishvanjas Language Courses : Enroll in German language courses offered by universities, language institutes, or online platforms. Language Exchange Programs : Participate in language exchange programs to practice German with native speakers. Immersion : Spend time in

The principal assured to improve the result by adopting various strategies including taking special classes to the students who are weak in particular engineering subjects.

Agenda No.41/3/23: The Principal expressed satisfaction in the improvement of admissions particularly connected in Engineering Courses with the computer technology and its emerging areas. He has expressed his concern about students not opting for traditional engineering courses like Mechanical & Civil in the past 3-4 years period. The Committee suggested several strategies in this regard.

Agenda No.41/4/23: The Principal explained the necessity of realignment of seat matrix by reducing 30 seats from Mechanical Engineering and increasing the same strength in Information Science Engineering. The Committee agreed for the same and given consent to apply for the concerned authorities.

Agenda No.41/5/23: Principal presented to the committee that the affiliation renewal process is being carried out with AICTE & VTU. Since there is a demand as well as infrastructure is abundantly available in the College for MBA & MCA courses, the affiliation renewal application submitted with a request to consider 120 seats each in the said two streams. The Committee expressed to follow up with the authorities concerned by replying in time to their scrutiny, if any.

Agenda No.41/6/23: The Principal presented a fair budget estimation for the academic year 2023-2024 after analyzing the department wise requirements, which is submitted to the Chairman for approval. The Committee suggested to have genuine requirements fulfilled to extend quality education.

Agenda No.41/7/23: The Principal explained the conduction of VTU examination as per norms and placement activities to the eligible students. The Committee suggested to improve the placement activities and to assist the students in their future career.

Agenda No.41/8/23: The purchase Committee proceedings and observations presented for ratification and the same is approved by the Committee for the purchases made during the year under report.

Agenda No.41/9/23: Outsourcing soft skill training and engaging a reputed Company in this regard is approved by the Committee.

Agenda No.41/10/23: The Committee ratified the appointment of faculty members in place of resigned members and fresh faculty members appointed as per the norms also ratified. The Committee also ratified the appointment of non-teaching staff as per the requirements.

Agenda No.41/11/23: The Principal explained the necessity of establishing new labs as per the latest University guidelines and instructions. The Committee ratified the establishment of 4 labs and the connected expenditure incurred for the same.

Agenda No.41/12/23: The Committee fully satisfied with the establishment of full pledged Auditorium and ratified the connected expenditure.

Agenda No.41/13/23: The Committee expressed satisfaction for having remodeled the both boys & girls wash room area with modern amenities and facilities.

Agenda No.41/14/23: The Principal requested the Committee to consider the pending civil works and to incur the connected expenditure.

Agenda No.41/15/23: The Committee approved the periodical renewal of Insurance policies including Students Safety Package Insurance Policy and to incur the related expenditure of premium amount.

Agenda No.41/16/23: The Principal explained in brief the purchase/necessity of fixed assets, latest configured Computers and its peripherals. The Committee approved the same.

Agenda No.41/17/23: The Principal explained the requirement of remaining Infrastructure improvement and the Committee given the concurrence to fulfill the same.
