Report On Online Webinar on COVID-19 Awareness

In response to the ongoing COVID-19 pandemic, an online webinar titled "COVID-19 Awareness and Prevention" was organized on 10/08/2020. The event aimed to enhance understanding of the virus, promote preventive measures, and address concerns related to the pandemic. The session was conducted by Dr. Sandeep Jain, a psychologist, who provided valuable insights into the current situation, vaccination, and mental health strategies.

Objectives

The key objectives of the webinar were:

- To provide updated information on COVID-19, including its symptoms, transmission, and the latest variants.
- To educate participants on the importance of vaccination, mask-wearing, and social distancing.
- To discuss the impact of the pandemic on mental health and suggest coping mechanisms.
- TodispelmythsandmisconceptionsaboutCOVID-19and vaccination.

Outcomes

• Increased Awareness:

- Participants gained a comprehensive understanding of COVID-19, including the latest updates and preventive measures.
- o The session successfully dispelled several myths and misconceptions, contributing to better-informed decisions.

• Enhanced Engagement:

The interactive format of the webinar encouraged active participation, with many attendees asking questions and sharing their experiences.

The online webinar on COVID-19 awareness was a significant success, achieving its objective of educating participants about the virus and promoting preventive measures. The session not only enhanced understanding but also empowered attendees to make informed decisions regarding their health and safety. With continued efforts, such initiatives can play a crucial role in combating the pandemic and protecting public health.

Report on Online Webinar on Waste Management

The Online webinar on 'Waste Management' Beyond the Campus initiative, conducted by Prof. Sravanthi, on 22/02/2021 aimed to extend the campus waste management efforts to the surrounding communities through an online platform. This program was designed to educate and engage participants in responsible waste disposal and recycling practices, ultimately fostering a more sustainable environment.

Objective

The primary objective of this initiative was to raise awareness about the importance of effective waste management beyond the campus. The program sought to encourage individuals to adopt sustainable waste management practices in their homes and communities.

Outcomes

Increased Awareness:

The initiative successfully raised awareness about the importance of waste management in the community. Participants reported a better understanding of how to manage waste effectively and reduce their environmental footprint.

• Community Engagement:

 The program fostered a strong sense of community among participants. The online platforms allowed for continuous engagement, and the sharing of ideas helped reinforce the message of sustainability.

• Positive Behavioral Change:

 Many participants reported adopting new waste management practices, such as composting and recycling, in their daily lives. This change in behavior is expected to have a lasting impact on the community.

The Online webinar on Waste Management beyond the Campus initiative, led by Prof. Sravanthi, was a significant step towards promoting environmental sustainability in the community. The program successfully engaged participants in meaningful discussions and actions related to waste management, setting a foundation for continued efforts in this area. With some improvements, this initiative has the potential to make an even greater impact in the future.
