Sub: Regarding Permission to conduct Value added course

Respected Sir,

We would like to conduct a Value-Added course on “Quantitative Mastery for Engineers” for final year students from 24-05-2021 to 28-05-2021. This course equips engineering students with a solid foundation in quantitative aptitude, enhancing their problem-solving skills and boosting confidence for competitive exams and real-world engineering challenges. Participants gain a comprehensive skill set over five days, empowering them with the mathematical prowess needed for success in academic assessments, job placements, and beyond. So, I request you to permit us to conduct this course. Kindly do the needful.

CIRCULAR

Sub: Conducting a Value Added Course

This is to inform all the final-year students that our department is going to conduct a 5-day Value Added Course on **Quantitative Mastery for Engineers** from **24-05-2021 to 28-05-2021 in online mode**. The students can contact the respective coordinator to participate in this course.

Mr. Vivekavardhana Reddy
HOD
Department of CSE

Department of Computer Science and Engineering

Value Added Course on Quantitative Mastery for Engineers

Schedule

Academic Year: 2020 – 2021

Mode: Online

Date	Session 1 (9:15 – 11:15)	Session 2 (11:30 – 1:30)	Lunch Break (1:30 – 2:00)	Session 3 (2:00 – 4:00)
24-05-2021	Introduction, Number Systems, Arithmetic Operations	Practice problems, Group discussions		Fractions, Decimals, Powers, and Roots Problem-solving exercises
25-05-2021	Algebraic Expressions, Linear Equations	Quadratic Equations, Inequalities, Factorization		Hands-on algebraic problem-solving
26-05-2021	Basics of Geometry, Triangles, Quadrilaterals	Geometric problem-solving		Circles, Cylinders, Rectangular Coordinates Mensuration calculations
27-05-2021	Data Interpretation Techniques, Graphs, Charts	Data analysis exercises		Measures of Central Tendency, Dispersion, Probability Statistical problem-solving
28-05-2021	Time, Speed, Distance, Ratio and Proportion	Advanced topic problem-solving , Permutations, Combinations, Percentage, Profit-Loss		Mock test, Review session

Value Added Course on Quantitative Mastery for Engineers

Course Content

Module 1: Foundations of Mathematics

1. Introduction to Quantitative Aptitude
2. Number Systems
3. Basic Arithmetic Operations
4. Fractions and Decimals
5. Powers and Roots

Module 2: Algebra and Equations

1. Algebraic Expressions
2. Linear Equations
3. Quadratic Equations
4. Inequalities
5. Polynomials and Factorization

Module 3: Geometry and Mensuration

1. Basics of Geometry
2. Triangles and Quadrilaterals
3. Circles and Cylinders
4. Rectangular Coordinates
5. Mensuration: Area and Volume

Module 4: Data Interpretation and Statistics

1. Data Interpretation Techniques
2. Graphs and Charts
3. Measures of Central Tendency
4. Measures of Dispersion
5. Probability

Module 5: Advanced Topics and Mock Test

1. Time, Speed, and Distance
2. Ratio and Proportion
3. Permutations and Combinations
4. Percentage and Profit-Loss
5. Mock Test and Review

Value Added Course on Quantitative Mastery for Engineers

Date: 24-05-2021 to 28-05-2021

Resource Person Profile

Ms. K Krishna Bai

K Krishna Bai is a highly skilled and experienced professional in the fields of education and training. With a Master of Technology in Biomedical Signal Processing from RV College of Engineering, Bangalore, she has demonstrated a strong commitment to practical teaching methods and hands-on experience. Bai's expertise lies in quantitative aptitude, logical reasoning, and technical training, particularly in C, C++, Python, web design, and SQL. Her career spans various roles, including assistant professor in an engineering college, tutorpreneur for mathematics and engineering subjects, and freelance trainer for undergraduate students in Bangalore. Additionally, she has served as an online coding instructor for college students. Bai's dedication to education and training, coupled with her result-oriented and creative problem-solving approach, makes her a valuable resource for those seeking instruction in quantitative and technical domains. Her commitment to a practical teaching approach, combined with her extensive experience, positions her as a valuable resource for those seeking training in quantitative aptitude, logical reasoning, and technical subjects.

Course Outcome

The students will be able to:

1. Demonstrate a profound understanding of foundational mathematical concepts, including number systems, arithmetic operations, and algebraic expressions.

CITY
ENGINEERING COLLEGE

-
2. They will exhibit advanced problem-solving skills in areas such as geometry, mensuration, and statistical analysis, showcasing the ability to apply mathematical principles to engineering scenarios.
 3. Participants will develop a heightened proficiency in interpreting data through graphs and charts, enabling them to make informed decisions based on quantitative information.
 4. The course will empower individuals with the skills to confidently handle advanced topics like time, speed, distance, ratio, and proportion, enhancing their quantitative reasoning abilities.
 5. Ultimately, participants will be well-prepared for competitive exams, campus placements, and real-world engineering challenges, equipped with a comprehensive quantitative aptitude skill set.

A Report on Value Added Course on Quantitative Mastery for Engineers

A five days' Value Added Course on “Quantitative Mastery for Engineers” was successfully conducted in the city engineering college, from 24-05-2021 to 28-05-2021 by Department of Computer Science and Engineering. The course sessions received an overwhelming response from participants.

This course is a dynamic and intensive program designed to enable participants be well-equipped to foster a culture of innovation, generate creative solutions to challenges, and contribute effectively to the development of innovative ideas in diverse professional and personal settings.

Day 1: Foundations of Mathematics

On the first day, participants were introduced to the fundamentals of quantitative aptitude. The session covered topics such as number systems, basic arithmetic operations, and powers and roots. Activities included practice problems and group discussions to strengthen the participants' grasp of these foundational concepts.

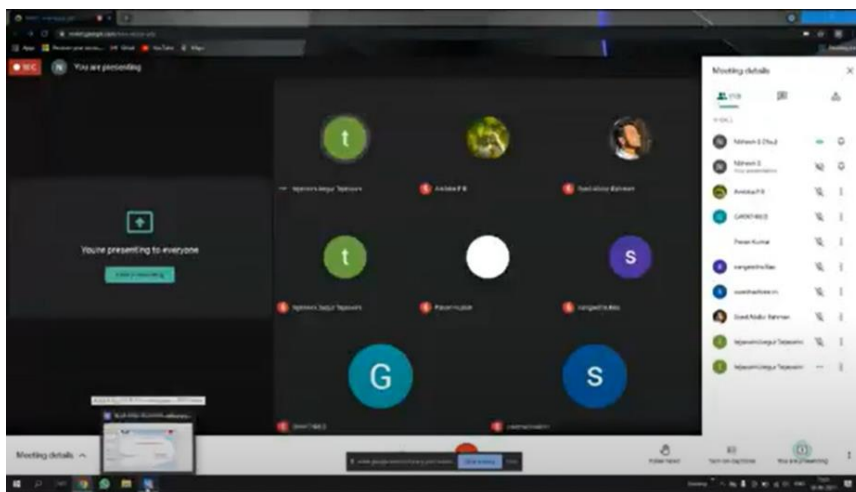

FIG 3: SCREENSHOT OF SESSION

Day 2: Algebra and Equations

The second day delved into algebraic expressions, linear equations, and quadratic equations. In interactive problem-solving sessions, participants applied these concepts to real-world scenarios. Factorization techniques were explored, providing a solid foundation for more complex problem-solving.

Day 3: Geometry and Mensuration

Geometry and mensuration were the focus of day three, where participants engaged in problem-solving exercises related to triangles, quadrilaterals, circles, and cylinders. Practical

CITY
ENGINEERING COLLEGE

applications of rectangular coordinates and mensuration concepts, including area and volume calculations, were explored.

Day 4: Data Interpretation and Statistics

The fourth day was dedicated to data interpretation techniques, graphs, and charts. Participants also delved into statistical measures such as central tendency and dispersion. The session included hands-on activities for interpreting data patterns and understanding probability.

Day 5: Advanced Topics and Mock Test

On the final day, participants explored advanced topics such as time, speed, and distance, as well as ratio and proportion. The day concluded with a comprehensive mock test, allowing participants to apply their knowledge and skills. A review session provided valuable insights for improvement.

Throughout the five-day intensive workshop, participants actively engaged in problem-solving activities, group discussions, and mock tests. The course successfully equipped engineering students with a robust understanding of quantitative aptitude, enhancing their abilities to tackle various challenges in academic assessments and real-world engineering scenarios.

About College

City Engineering College, Bangalore affiliated to Visvesvaraya Technological University (VTU) is centrally located in Bangalore. The College has expanded over the last 20 years with sophisticated infrastructure as a part of the Institution's commitment to provide higher quality education in the area of Engineering. The highly facilitated landmark building - provides a perfect ambience for creativity and learning. City Engineering College is known for its academic excellence, friendly welcoming atmosphere and community spirit. Over large number of full time students study here in a wide range of programs. It is a centre of talented, experienced teachers who inspire and energize the students to achieve the best.

logical reasoning

About The Course

Empower engineering students with essential quantitative skills through a comprehensive 5-day course. From foundational concepts to advanced problem-solving, gain the expertise needed for academic success and real-world engineering challenges.

About The Department

The Department of Computer Science & Engineering was started in the year 2001 is known for imparting Quality education and carrying out cutting edge research. In addition to the UG program, PG CSE program and Research facilities for Ph.D. The department offers undergraduate program and has a comprehensive curriculum on topics related to software and hardware with an emphasis on theoretical and practical learning. It has well equipped, state of the art laboratories supported by highspeed Internet and wireless networks.

Sub: Regarding permission to conduct a value-added course

Respected Sir,

We would like to conduct a Value-added course on “Business Writing Skills” for second year students from 26th to 30th April 2021. This business writing skills course strategically bridges the gap between industry and academia by combining theoretical knowledge with practical application. Participants gain a solid foundation in essential business writing principles, ensuring alignment with academic standards. Simultaneously, the course emphasizes real-world applications, incorporating industry-specific scenarios and challenges to enhance practical skills. So, I request you to permit us to conduct this course. Kindly do the needful.

Mr. Vivekavardhana Reddy
HOD
Department of CSE

CIRCULAR

Sub: Conducting a Value-added course

This is to inform all the second year students that a 5-day value added course on **Business writing skills** by Mr. Sharath B S, Senior Program Manager, Last Mile Quality, Amazon Development Centre, Bangalore, India has been organized from 26th to 30th April 2021 in online mode. All the students have to participate compulsorily for the same. Attendance will be viewed strictly. All the students are hereby instructed to attend the session and get the maximum benefits.

Value-added course on Business Writing Skills

Date: 26-04-2021 to 30-04-2021

Schedule

Academic Year: 2020-21

Date	Session 1 (9:15 – 11:15)	Session 2 (11:15 – 1:15)	Session 3 (2:00 – 4:00)
26-04-2021	Introduction to Business Writing	Understanding the Audience	Basics of Grammar and Punctuation
27-04-2021	Structure and Organization	Professional Email Writing	Writing Reports and Proposals
28-04-2021	Business Letters and Memos	Editing and Proofreading Techniques	Writing for Different Platforms
29-04-2021	Developing a Business Writing Style	Handling Sensitive Topics	Case Studies and Real-world Applications
30-04-2021	Writing Workshop	Course Conclusion and Certification	Review and Q&A

Value Added Course on Business Writing Skills

Date: 26-04-2021 to 30-04-2021

Resource Person Profile

Sharath B S has 7 years of experience in retail, automobile, and manufacturing industries. He has expertise in Program Management, Product Development, Technical Consulting, Stakeholder Management, and Operations Management. He has developed end-end product solutions for global automobile OEMs and managed strategic programs to enable efficient last mile delivery.

Sharath has experience at the Amazon Development Center India, Robert Bosch Engineering and Business Solutions Pvt Ltd, and Dynatech Tools and Devices Pvt Ltd. He has led teams of 6 engineers for 10 projects across segments for 5 global and Indian OEMs, enabling them to achieve BS4, BS6, and Trem4 emission norms.

He has also developed and implemented an end-to-end data measurement and analysis process, saving 800 man-hours per year. He has also innovated a software solution to existing hardware, resulting in savings of INR 5 million per year for the customer.

Sharath has worked as a quality controller at Dynatech Tools and Devices Pvt Ltd, where he ensured conformity to design and facilitated on-time availability of right-level products. He has also volunteered as an instructor for trade apprentices at Bosch Vocational Centre and trained 40+ internal and external stakeholders from various Indian OEMs on diesel air system calibration.

In addition to his work in retail, automobile, and manufacturing, Sharath has been involved in various certifications and extra-curricular activities. He holds a KPMG Certified Lean Six Sigma Green Belt and has served as an instructor for trade apprentices at Bosch Vocational Centre.

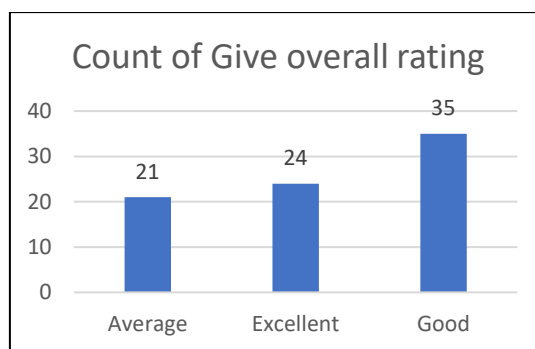

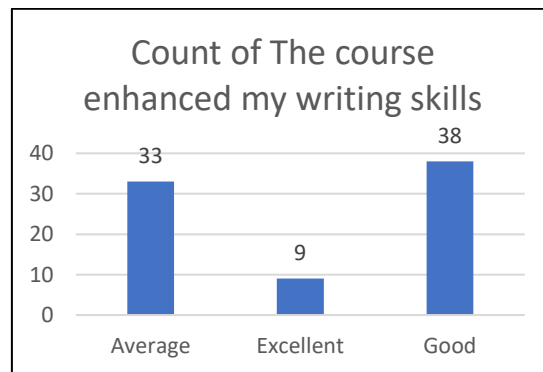

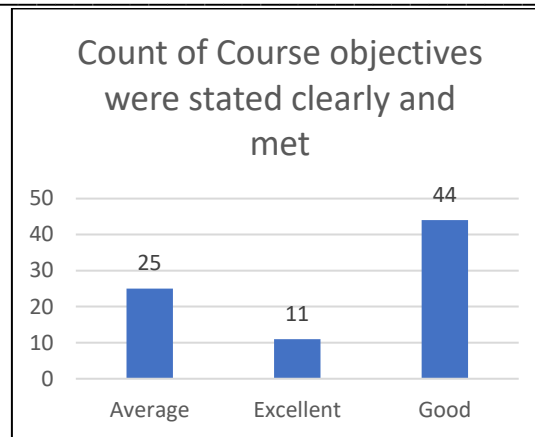

FIG 1 : FEEDBACK ANALYSIS

Course Outcome

Upon completing the 5-day business writing skills course, participants should be able to:

1. Participants will produce written materials characterized by clarity, conciseness, and precision, ensuring effective communication in professional settings.
2. Participants will demonstrate a polished and professional writing style, adjusting their tone and language appropriately for various business contexts.

CITY
ENGINEERING COLLEGE

-
3. Participants will exhibit proficiency in grammar and punctuation, resulting in error-free written communication that enhances credibility.
 4. Participants will confidently navigate different business writing genres, producing documents that align with industry standards and expectations.
 5. Participants will excel in presenting data and information in business reports, ensuring clarity, relevance, and persuasiveness in their written communication

A Report on Value-Added Course on “Business Writing Skills”

A five-day Value-Added Course on **Business Writing Skills** was organised by the Department of Computer Science and Engineering from 26/4/2021 to 30/4/ 2021 for Computer Science and Engineering students in the Project Laboratory. **Mr. Sharath B S, Senior Program Manager, Last Mile Quality, Amazon Development Center, Bangalore** was the resource person.

Day 1:

Session 1: Introduction to Business Writing

On the first day, participants were introduced to the fundamentals of effective business writing. They learned about the importance of clarity, conciseness, and coherence in communication. Practical exercises and examples were provided to enhance understanding.

Session 2: Understanding the Audience

The second session focused on the crucial aspect of tailoring writing to specific audiences. Participants engaged in activities to identify different audience types and practiced adapting their writing styles accordingly.

Session 3: Basics of Grammar and Punctuation

The third session delved into the essential elements of grammar and punctuation in business writing. Common mistakes were highlighted, and participants were guided through exercises to reinforce proper usage.

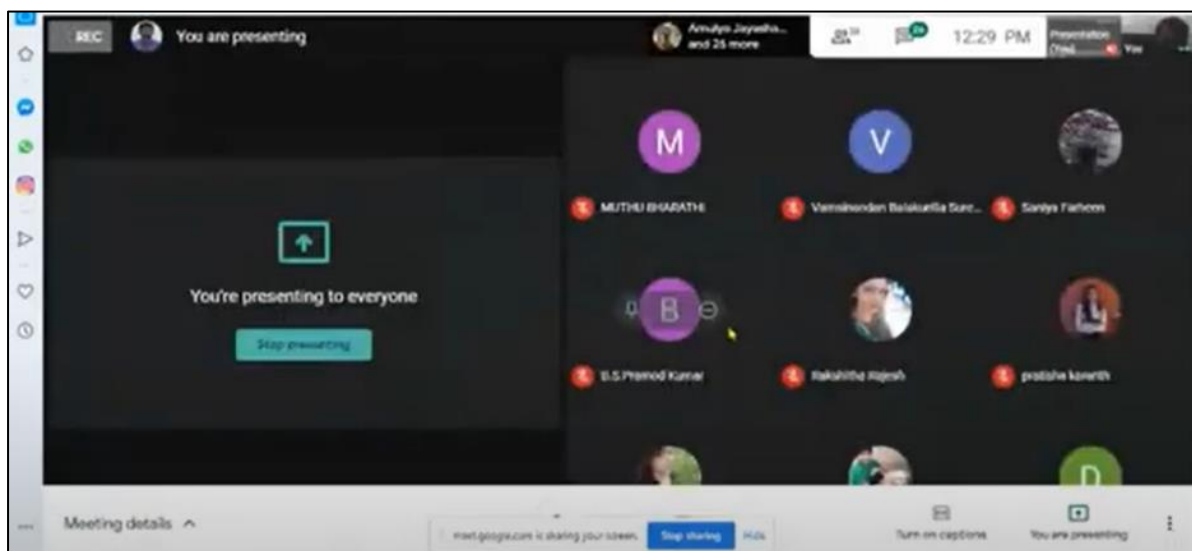

FIG 2: SCREENSHOT OF THE SESSION

Day 2:

Session 1: Structure and Organization

Day two commenced with an exploration of effective document structure and organization. Participants learned about the importance of logical flow, headings, and subheadings in creating coherent business documents.

Session 2: Professional Email Writing

The second session focused on the nuances of professional email writing. Participants were provided with practical tips and examples to enhance their email communication skills in a business context.

Session 3: Writing Reports and Proposals

Participants spent the third session mastering the art of crafting comprehensive reports and proposals. The session covered the necessary components, formatting guidelines, and strategies for producing impactful business documents.

Day 3:

Session 1 : Business Letters and Memos

Day three kicked off with a deep dive into the conventions of business letters and memos. Participants learned the appropriate formats and styles for various professional communication scenarios.

Session 2: Editing and Proofreading Techniques

The second session of the day focused on refining writing through effective editing and proofreading. Practical exercises allowed participants to apply techniques for catching errors and improving overall writing quality.

Session 3 : Writing for Different Platforms

Participants explored the diversity of writing platforms in the business context during the third session. This included social media, blogs, and other digital communication tools. Best practices for adapting writing styles to different platforms were discussed.

Day 4:

Session 1: Developing a Business Writing Style

On the fourth day, participants engaged in activities aimed at helping them develop their unique business writing style. The session focused on cultivating a professional tone while maintaining authenticity.

CITY
ENGINEERING COLLEGE

Session 2: Handling Sensitive Topics

The second session addressed the delicate task of addressing sensitive topics in business writing. Participants learned strategies for navigating challenging subjects while maintaining professionalism.

Session 3: Case Studies and Real-world Applications

Day four concluded with the application of learned skills through case studies and real-world examples. Participants analyzed and critiqued various business documents to reinforce their understanding of effective writing practices.

Day 5:

Session 1: Review and Q&A

The final day began with a comprehensive review of key concepts covered throughout the course. Participants had the opportunity to ask questions and seek clarification on any topics.

Session 2: Writing Workshop

The second session allowed participants to put their skills to the test in a writing workshop. Feedback was provided on individual writing samples, and participants had the chance to refine their work based on the lessons learned.

Session 3: Course Conclusion and Certification

The course concluded with a wrap-up session where participants received certificates of completion. Final insights and tips for continued improvement in business writing were shared, providing a comprehensive conclusion to the 30-hour program.

In this comprehensive 5-day business writing skills course, participants immersed themselves in a dynamic learning experience, progressing from foundational principles to advanced techniques. Through a carefully crafted curriculum, they honed their abilities in various business writing genres, including emails, reports, and letters. The course culminated in a hands-on writing workshop, empowering participants to apply their newfound skills and receive personalized feedback for continued professional growth.

Sub: Regarding Permission to conduct Online Certificate course on
“Leadership Skills”.

Respected Sir,

We would like to conduct an Online certificate course on “Leadership Skills” for first year students from Date 02-03-21 to 06-03-21. This course is intended to engage the students for improving Leadership qualities, team dynamics and conflict resolution. It helps the student to have an understanding of how to manage projects and to lead teams.

So, I request you to permit us to conduct this course. Kindly do the needful.

Coordinator
Mrs. Sunitha N

About College

City Engineering College, Bangalore affiliated to Visvesvaraya Technological University (VTU) is centrally located in Bangalore. The College has expanded over the last 19 years with sophisticated infrastructure as a part of the Institution's commitment to provide higher quality education in the area of Engineering. The highly facilitated landmark building – provides a perfect ambience for creativity and learning. City Engineering College is known for its academic excellence, friendly welcoming atmosphere and community spirit. Over large number of full time students study here in a wide range of programs. It is a center of talented, experienced teachers who inspire and energize the students to achieve the best.

About Applied Science and Humanities

The Applied Science and Humanities Department in City Engineering College serves as a fundamental pillar, providing essential knowledge in fundamental scientific disciplines such as mathematics, physics, and chemistry. This Department plays a critical role in equipping engineering students with the core scientific principles and analytical skills necessary for their specialized engineering studies. Faculty members in the Applied Science Department typically engage in both teaching and research, contributing to advancements in their fields and enhancing the overall academic environment. The department often offers courses that support and complement the various engineering programs, ensuring that students have a strong scientific grounding to solve complex engineering problems effectively.

About Leadership Skills

Leadership skills are essential qualities that enable individuals to guide, motivate, and influence others effectively. Key skills include strong communication, which ensures clear and effective exchange of ideas; emotional intelligence, which helps in understanding and managing emotions and building relationships; and decision-making, which involves making informed choices to address challenges. Effective leaders also excel in delegation, allowing them to assign tasks appropriately and trust their team, and conflict resolution, managing disagreements constructively. Developing these skills helps individuals lead with confidence and inspire their teams to achieve shared goals.

Resource Person Details

Dr. Jyothi P, Professor and HOD Mathematics

Dr. Jyothi.P , holds a Doctorate degree in Mathematics from Jain University and she has done her post-graduation from Osmania University, MBA from IGNOU. She has M.Phil degree in Mathematics into her credit. She has an impressive back ground in teaching, administration and research. She has 24 years of academic/teaching experience in both UG and PG (taught Maths for M.Tech, DMS for MCA, Statistics, Operation research, Quantitative techniques for MBA) with 10 years of research focus. Dr.Jyothi.P served as Vice Principal for four years in City Engineering College(Affiliated to VTU), Bangalore.

She has several research papers into her credit. She has contributed research papers in the area of Applications of Goal Programming. She has participated, presented papers and chaired sessions at various conferences. She is a member of Indian Society for Technical Education(ISTE). She has attended several state level seminars, webinars and workshops. She became VTU Research supervisor in the year May 2023. She has served as IQAC coordinator of the institution for 5 years. She has done certification courses in Data Analytics from Besant Technology.

As I am interested in Research I motivated myself to write the book on Research methodology which is very important for all researchers. Hope this will be helpful for all young researchers.

Feedback Responses - 80
Feedback Summary -

- Understand the fundamental differences between Leadership Skills.
- Identify and differentiate between various leadership styles such as transformational and transactional leadership.
- Develop strategies for effective team building and improving team dynamics.
- Students will understand and be able to apply change management principles to lead successful organizational transformations.
- Exhibit a strong commitment to ethical leadership and corporate social responsibility.

To,

Dr. Jyothi P,

HOD, Mathematics

Subject: Letter of appreciation for Certificate course on Leadership Skills

We express our sincere gratitude for your invaluable and exemplary service rendered as a resource person for the Certificate Course Leadership Skills from 2nd to 6th Mar 2021 conducted by, Department of Basic Science, City Engineering College, Bangalore.

Thanking You,

PRINCIPAL
CITY ENGINEERING COLLEGE
KATRAKUPA MAIN ROAD, BANGALORE - 560 081

Yours Sincerely

Principal

Dr. Ramamurthy

CITY
ENGINEERING COLLEGE

Department of Basic Science
Certificate course on Leadership Skills

Course Objectives

The course objectives are

- Gain a comprehensive understanding of key leadership theories, principles and practices.
- Enhance verbal and non-verbal communication skills essential for effective Leadership Skills.
- Learn techniques for building, leading, and motivating high-performance teams.
- Develop critical thinking and decision-making skills necessary for effective Leadership Skills.
- Develop the ability to lead and manage in diverse and multicultural environments.

Course Outcomes

The students will be able to:

- Understand the fundamental differences between Leadership Skills.
- Identify and differentiate between various leadership styles such as transformational and transactional leadership.
- Develop strategies for effective team building and improving team dynamics.
- Students will understand and be able to apply change management principles to lead successful organizational transformations.
- Exhibit a strong commitment to ethical leadership and corporate social responsibility.

**DEPARTMENT OF BASIC SCIENCE
ONLINE CERTIFICATE COURSE**

A five-day Certificate Course on **Leadership Skills** was organized by the Department of Basic Science from 2nd to 6th Mar 2021 for First year students by Prof. Jyothi PHOD, Mathematics. The schedule for a five-days course on Leadership Skills for Personal & Professional Productivity covered key topics.

Day 1: The event began with a formal inaugural function by **Principal CEC and HOD's of Basic Science** were present during the inauguration. The program began by seeking the blessings of Almighty with invocation and lighting of lamp. Principal advised the students to utilize the benefits of the course completely. **Prof. Jyothi madam** Welcomed the resource person and gave a course overview. Later the session was handed over to the speaker.

On the first day, introduction of fundamental differences between Leadership Skills. Participants learned about the various roles and responsibilities that distinguish leaders from managers, emphasizing the unique qualities and skills required for each.

Day 2: The second day explored different leadership styles, such as autocratic, democratic, laissez-faire, and transformational. The session focused on understanding the characteristics of each style and identifying situations where each is most effective.

Day 3: The third day focused on motivation theories, including Maslow's Hierarchy of Needs and Herzberg's Two Factor Theory. Participants discussed how these theories can be applied to motivate teams and improve workplace satisfaction.

Day 4: The fourth day, participants learned about the decision-making process, starting from defining the problem to evaluating the outcomes. Emphasis was placed on making informed and inclusive decisions to lead teams effectively.

Day 5: On the final day, the focus was on ethical leadership, discussing what it means to lead ethically and how to align behavior and decisions with ethical standards. Case studies were used to illustrate real-world ethical dilemmas.

Throughout the intensive 5-day course, participants engaged in a structured and rigorous curriculum that effectively enhanced their skills. This structure ensures that participants gain a comprehensive understanding of essential Leadership Skills concepts over the course of the program.

Add – on Course

Software Testing with Selenium

09-11-2020 to 13-11-2020

CITY
ENGINEERING COLLEGE

Date: 30-10-2020

To

The Principal
City Engineering College
Bangalore

Sub: Regarding Permission to conduct an Add-on Course

Respected Sir,

We would like to conduct an Add-on course on “Software Testing with Selenium” for third year students from 09-11-2020 to 13-11-2020. The curriculum does not include the course on software testing which is a job domain in the market. The course effectively bridges the industry-academia gap by prioritizing real-world applications of Selenium for web testing. So, I request you to permit us to conduct this course. Kindly do the needful.

Mr. Vivekavardhana Reddy

Add-on Course “Software Testing with Selenium”

Date: 09-11-2020 to 13-11-2020

Schedule

Academic Year: 2020-21

Mode: Online

Date	Session 1 (9:15 – 11:15)	Session 2 (11:15 – 1:15)		Session 3 (2:00 – 4:00)
09-11-2020	Introduction to Automated Testing and Selenium	Selenium Components (Selenium IDE, Selenium WebDriver, Selenium Grid)	Lunch Break (1: 15 - 2: 00)	Setting up the Selenium Environment, Installing and configuring Selenium WebDriver
10-11-2020	Selenium WebDriver Basics	Identifying elements using various locators		Handling Different HTML Elements
11-11-2020	Synchronization, Implicit and explicit waits, Expected conditions	Handling Alerts and Pop-ups		Performing advanced user interactions
12-11-2020	Introduction to TestNG, Annotations and configuration	TestNG Features, Parameterization, Test Suites and Groups		Page Object Model
13-11-2020	Design Patterns in Selenium	Creating Page Classes		Page Factory in Selenium

Co-Ordinator

Mr. Vivekavardhana Reddy
HOD

Department of Computer Science and Engineering

Add-on Course “Software Testing with Selenium”

Course Content

Module 1: Introduction to Automated Testing and Selenium

Overview of Automated Testing; Importance of Automated Testing; Benefits and Challenges; Introduction to Selenium; History and evolution; Selenium Components (Selenium IDE, Selenium WebDriver, Selenium Grid)

Module 2: Setting up the Selenium Environment

Installing Selenium WebDriver; Configuring WebDriver for different browsers (Chrome, Firefox, etc.); Configuring Integrated Development Environment (IDE); Setting up Eclipse, IntelliJ, or other IDEs

Module 3: Selenium WebDriver Basics

Understanding WebDriver; Basics of WebDriver architecture; WebDriver commands and methods; Locating Elements; Identifying elements using various locators (ID, Name, XPath, CSS selectors, etc.); Handling Different HTML Elements; Textboxes, buttons, dropdowns, radio buttons, checkboxes, etc.

Module 4: Advanced Selenium WebDriver

Synchronization; Implicit and explicit waits; Expected conditions; Handling Alerts and Pop-ups; Switching between windows and frames; Handling JavaScript alerts; Action Class; Performing advanced user interactions (mouse and keyboard actions)

Module 5: TestNG Framework

Introduction to TestNG; Annotations and configuration; TestNG Features; Parameterization; Test Suites and Groups

Module 6: Page Object Model (POM)

Design Patterns in Selenium; Introduction to POM; Creating Page Classes; Page Factory in Selenium

Add-on Course “Software Testing with Selenium”

Date: 09-11-2020 to 13-11-2020

Resource Person Profile

Aravind B.S is a highly experienced IT professional with over 12 years of expertise in testing mobile and web-based applications. He has worked on various projects, including the AI-based omnichannel platform YANA, the Access Line Integrated Intake System, and the Piedmont Payment Services web application. Aravind's responsibilities have included analysing requirements, preparing test scenarios, writing test cases, defect characterization, submission, and tracking using tools like JIRA and Bugzilla. He is proficient in manual testing, developing and maintaining automation frameworks using Selenium, and has a strong grasp of Agile SCRUM methodology, Software Development Life Cycle, and Software Testing Life Cycle. Aravind has hands-on experience in data parameterization using TestNG, Excel, XML, and Properties file, as well as in Selenium concepts like ID, X-path, CSS, Page Objects, and Data-Driven Testing. Additionally, he is skilled in developing test automation frameworks for web and mobile applications using Java-Selenium, TestNG, and for API testing using Java-Rest Assured/HTTP Client, TestNG. His expertise also extends to designing and developing Behavior Data Driven (BDD) framework using cucumber java and utilizing Jenkins as a Continuous integration server to configure with Maven. Aravind's project experience includes working on AI-based omnichannel platforms like YANA, and web applications such as Piedmont Payment Services, Access Line Integrated Intake System, and FADV DQ & IQ Enhancement. He has also contributed to projects involving the setup and transfer activation for AT&T Mobility Business to Consumer (B2C) Order Gateway. In terms of his educational background, Aravind holds a Bachelor's degree in Computer Science Engineering from Coorg Institute of Technology, Ponnampet, and has undergone "Software Testing Training-Selenium" from Q-spider's software testing training Institute, Bangalore. With his strong technical skills, extensive project experience, and commitment to continuous learning, Aravind B.S is a dedicated professional contributing significantly to the field of IT and software testing.

Assessment Questions

1. When was selenium developed?
 - A. 2004
 - B. 2005
 - C. 2006
 - D. 2001
2. Who developed selenium?
 - A. Dan Cuellar
 - B. Jason Huggins
 - C. Rossmanith Gmbh
3. Does selenium support a variety of languages?
 - A. Yes
 - B. No
4. Can we deploy selenium on different platforms other than windows?
 - A. Yes
 - B. No
5. Which of the following browsers supports selenium?
 - A. Google Chrome
 - B. Safari
 - C. Mozilla Firefox
 - D. Internet Explorer
 - E. All of the above
6. What is selenium, select the best answer.
 - A. Selenium is the open-source test automated tool to test web-based UI which only supports JavaScript's
 - B. Selenium is the open-source test automated tool to test web-based UI which supports many different languages like Java, Python, Perl, PHP, Ruby, and C#.
 - C. Selenium is a behavioral testing tool that supports many different languages like Java, Python, Perl, PHP, Ruby, and C#.
7. What do you mean by open-source software?
 - A. Open-source software is software that circulated across the world with its source code which also means it is available for use, and modification.
 - B. Open-source software is software that is easy to use and where the code is stored in a public repository also it comes with a distributed license.
 - C. All of the above
8. What is UI testing?
 - A. Web User Interface (UI) Testing is a mechanism for testing the features of any software a user will interact with including the fonts, color, design, etc.
 - B. Web User Interface (UI) Testing is a mechanism for testing only the performance of the software but it does not cover the testing of fonts, color, etc
9. Which of the following is not the alternative to selenium?
 - A. Cucumber
 - B. Cypress
 - C. Puppeteer
 - D. Mocha

-
10. Check whether the given statement is true or false?
'Selenium web driver does not require server installation, test scripts interact directly with the browser.'
- A. Yes
 - B. No
11. Does selenium support ASP.NET language?
- A. Yes
 - B. No
12. What is QTP?
- A. Quick test professional
 - B. Quick test personal
 - C. Quick testing-tool professional
13. Does QTP supports different environment?
- A. Yes
 - B. No
14. How many components does selenium have?
- A. 2
 - B. 3
 - C. 4
 - D. 5
15. What is selenium IDE?
- A. Selenium integrated distributed environment
 - B. Selenium integrated development environment
 - C. Selenium integrated dispense environment
16. Which selenium component allows to record and playback of the scripts?
- A. Selenium (IDE)
 - B. Selenium Remote Control
 - C. WebDriver
 - D. Selenium Grid.
17. Which selenium component is also known as selenium 1?
- A. Selenium (IDE)
 - B. Selenium Remote Control
 - C. WebDriver
 - D. Selenium Grid.
18. Does selenium RC supports a record or playback feature just like selenium IDE?
- A. Yes
 - B. No
19. Selenium RC support which architecture?
- A. Event-driven architecture
 - B. Master-slave architecture
 - C. Client-server architecture
 - D. Layered architecture
20. Selenium RC is based on ____.
- A. HTML
 - B. JavaScript
 - C. Python
 - D. Ruby

Course Outcomes

1. Understanding the Fundamentals of Automated Testing and Selenium
2. Proficiency in Setting Up and Configuring the Selenium Environment
3. Mastery of Selenium WebDriver Basics
4. Advanced Skills in Selenium WebDriver for Complex Test Scenarios
5. Comprehensive Knowledge of the TestNG Framework
6. Expertise in Implementing the Page Object Model (POM) in Selenium

A Report on Add-on Course “Software Testing with Selenium”

A five-day Add-on Course on **Software Testing with Selenium** was organised by the Department of Computer Science and Engineering from 9th to 14th Nov 2020 for Computer Science and Engineering students. Mr. Aravind B S, Senior Quality Lead, ThoughtFocus was the resource person.

The schedule for a five-day Value Added Course on software Testing with Selenium covered key topics and allow for hands-on activities.

Day 1:

On the first day, participants were introduced to Selenium, an open-source testing framework for web applications. The session covered the basics of Selenium, its architecture, and the various components that make it a powerful tool for automated testing.

In the afternoon session, participants learned how to set up their Selenium environment. This included installing necessary tools and configuring the Selenium WebDriver for different browsers. Practical demonstrations were provided to ensure everyone had a functional testing environment by the end of the day.

FIG 3: SCREENSHOT OF SESSION

CITY
ENGINEERING COLLEGE

Day 2:

The focus of the first session of Day 2 was on locators in Selenium. Participants gained a deep understanding of different locator strategies such as ID, Name, XPath, CSS, and more. Practical exercises allowed participants to practice using these locators to identify and interact with elements on web pages.

Participants delved into handling various web elements like buttons, text boxes, dropdowns, and more in the afternoon session. The session covered techniques for interacting with these elements using Selenium WebDriver, enabling participants to perform actions such as clicking, typing, and selecting.

Day 3:

On the third day, participants learned about Selenium WebDriver commands and how to perform actions on web elements. The session included hands-on exercises to reinforce the concepts and provided a solid foundation for writing effective automation scripts.

The afternoon session focused on synchronization strategies in Selenium to handle dynamic web pages. Participants explored implicit and explicit waits, ensuring that their automation scripts could adapt to various loading times and dynamic content.

Day 4:

On fourth day, participants learned how to handle alerts, pop-ups, and frames in Selenium. Practical examples were used to demonstrate how to switch between frames, accept or dismiss alerts, and handle different types of pop-ups encountered during web testing.

The fourth day included an introduction to TestNG, a testing framework for Java that is widely used with Selenium. Participants explored the features of TestNG and learned how to integrate it with Selenium for effective test case management and reporting.

Day 5:

Participants were introduced to the Page Object Model (POM) design pattern.

They learned how to structure their automation code using POM to enhance maintainability and readability. The session concluded with a recap of key concepts and a discussion on best practices for Selenium testing.

In the five-day Selenium testing course, participants were introduced to the fundamentals of Selenium, including its architecture and environment setup. By the end of the course, attendees had acquired a comprehensive skill set in Selenium testing, equipping them to effectively automate web applications and implement best practices in their testing projects.

ABOUT COLLEGE

City Engineering College, Bangalore affiliated to Visvesvaraya Technological University (VTU) is centrally located in Bangalore. The College has expanded over the last 19 years with sophisticated infrastructure as a part of the Institution's commitment to provide higher quality education in the area of Engineering. The highly facilitated landmark building – provides a perfect ambience for creativity and learning. City Engineering College is known for its academic excellence, friendly welcoming atmosphere and community spirit. Over large number of full time students study here in a wide range of programs. It is a centre of talented, experienced teachers who inspire and energize the students to achieve the best.

About The Course

The selenium testing course online helps you learn to work with various web element(s) locating strategies, perform actions on web elements, group, and sequence tests, as well as generate reports for your test cases using TestNG.

About The Department

The Department of Computer Science & Engineering was started in the year 2001 is known for imparting Quality education and carrying out cutting edge research. In addition to the UG program, PG CSE program and Research facilities for Ph.D. The department offers undergraduate program and has a comprehensive curriculum on topics related to software and hardware with an emphasis on theoretical and practical learning. It has well equipped, state of the art laboratories supported by highspeed Internet and wireless networks.

Sub: Regarding Permission to conduct online Certificate course on
Communication Proficiency.

Respected Sir,

We would like to conduct online certificate course on “Communication Proficiency” for first year students from date 05-10-20 to 09-10-20. This course is intended to engage the students for improving confidence, enhance clarity. It helps the student to communicate effectively in academic, professional, and personal setting, ultimately becoming more confident and persuasive speaker.

So, I request you to permit us to conduct this course. Kindly do the needful.

Coordinator
Mrs. Nagasree G

Dr. Ramamurthy
Principal, City Engineering college
Bangalore.

Convenor:

Dr. Jyothi. P
HOD, Dept of Mathematics, CEC

About college

City Engineering College, Bangalore affiliated to Visvesvaraya Technological University (VTU) is centrally located in Bangalore. The College has expanded over the last 19 years with sophisticated infrastructure as a part of the Institution's commitment to provide higher quality education in the area of Engineering. The highly facilitated landmark building – provides a perfect ambience for creativity and learning. City Engineering College is known for its academic excellence, friendly welcoming atmosphere and community spirit. Over large number of full time students study here in a wide range of programs. It is a center of talented, experienced teachers who inspire and energize the students to achieve the best.

About Basic Science

The Basic Science Department in City Engineering College serves as a fundamental pillar, providing essential knowledge in fundamental scientific disciplines such as mathematics, physics, and chemistry. This Department plays a critical role in equipping engineering students with the core scientific principles and analytical skills necessary for their specialized engineering studies. Faculty members in the Applied Science Department typically engage in both teaching and research, contributing to advancements in their fields and enhancing the overall academic environment. The department often offers courses that support and complement the various engineering programs, ensuring that students have a strong scientific grounding to solve complex engineering problems effectively.

Expert Speakers for the Program

Dr. K Sujatha
Professor, HOD of Physics
City Engineering college

Coordinators:

Mrs. Nagashree G
Assistant Professor
Dept. of Physics, CEC

Mrs. Sunitha N
Associate Professor
Dept. of Chemistry, CEC

Communication Proficiency

Communication proficiency is the ability to convey and receive messages effectively. It involves clearly articulating ideas, actively listening to others, and using appropriate nonverbal cues. Proficient communicators adapt their style to suit different audiences and contexts, ensuring their message is understood and engaging. They also demonstrate empathy and provide constructive feedback, fostering better relationships and collaboration. Effective communication is essential for successful interactions in both personal and professional settings.

Schedule

Academic Year: 2020-21

Venue: Online

Date	Session 1 (9:15 – 11:15)	Session 2 (11:30 – 1:30)	Lunch Break(1:30 – 2:00)	Session 3 (2:00 – 4:00)
05-10-2020	Introduction to Public Speaking	Self - Assessment of current speaking skills		Speech Preparation and Organization
06-10-2020	Developing Content and Supporting Material	Delivery Techniques		Engaging the Audience
07-10-2020	Handling Nervousness and Building confidence	Positive visualization and Mental Preparation		Impromptu Speaking
08-10-2020	Story Telling and Narrative Development	Final Speech Preparation		Managing Time and Pacing
09-10-2020	Final Presentation and Course Wrap Up	Final speech Presentation		Future Opportunities for Public Speaking Practice

CITY
ENGINEERING COLLEGE

Department of Basic Science

Online Certificate course on Communication Proficiency

Academic Year 20-21

Course Content

Module 1: Introduction to Public Speaking, significance of public speaking, Common fears and misconceptions about public speaking.

Module 2: Speech Preparation and Organization, Identifying and narrowing down a speech topic, Researching and gathering supporting material, structuring a speech.

Module 3: Developing Content and Supporting Material, crafting a clear and engaging message, Ensuring logical flow and coherence in content.

Module 4: Advance Speech Techniques, using rhetoric and persuasive techniques to enhance speeches, incorporating multimedia elements to support the message.

Module 5: Final Speech Presentation, managing time and pacing during the speech, Refining and polishing the final speech.

Online Certificate course on “Communication Proficiency”

Resource Person Profile

Dr. Sujatha K holds a Doctorate Degree in Physics from S.V. University, with her Post-Graduation at S.V. University. She Boasts an Impressive Background in Teaching, Administration, And Research, Accumulating 27 Years of Academic Experience. She taught Undergraduate Courses in B.Sc. Physics (Honours) Under the University of Delhi and also in the B.E. Course at City Engineering College Affiliated with VTU, Bangalore.

Dr. Sujatha has Served as a Junior Research Scientist (JRS) and Senior Research Scientist (SRS) in the Project Titled "DNES Department of Nonconventional Energy Sources" in the Department of Physics at S.V. University. Following her Ph.D., She Continued her Research in the Field of Thin Films at the Department of Physics and Astrophysics at the University of Delhi. She has Published Four Papers in Renowned International Journals Such as *Materials Science Letters*, *Solid State Communications*, And *Materials Letters*. Her Interests also include Setting up Experimental Laboratories and Guiding Numerous Projects for Undergraduate Students. She Actively Participates in Various Workshops, Conferences, and Faculty Development Programs (FDPs). She was Appointed as a Member of the VTU Board of Examiners (BOE) .

Department of Basic Science
Online Certificate course on Communication Proficiency

Academic Year: 2020-2021

Date: 05-10-2020 to 09-10-2020

Assessment Questions

1. What is public speaking?
 - a) Writing for a live audience
 - b) Delivering a speech to a live audience**
 - c) Sending emails to a group of people
 - d) Conducting online surveys

2. Why is audience engagement important in public speaking?
 - a) To avoid eye contact with the audience
 - b) To connect with the audience and keep them interested**
 - c) To discourage any interaction with the audience
 - d) To make the audience uncomfortable

3. What should a well-structured speech have?
 - a) An engaging title
 - b) A captivating conclusion
 - c) A clear introduction, body, and conclusion**
 - e) Randomly arranged content

4. Which aspect of public speaking involves using voice modulation and gestures?
 - a) Audience engagement
 - b) Clear messaging
 - c) Verbal and nonverbal communication**
 - d) Time management

5) What are visual aids in public speaking?

- a) The audience's facial expressions
- b) Props used by the speaker
- c) Gestures made by the speaker
- d) Slides, charts, videos, or props used to enhance the message**

6. Why is confidence important in public speaking?

- a) To impress the audience with arrogance
- b) To make the audience uncomfortable
- c) To build credibility and engage the audience**
- d) To showcase the speaker's authority

7. What does adaptability in public speaking refer to?

- a) Using different languages in the speech
- b) Adjusting content, style, and delivery to suit the audience and situation**
- c) Changing the topic of the speech midway
- d) Ignoring the audience's feedback

8. How can public speakers ensure clear messaging in their presentations?

- a) Using complex language and jargon
- b) Keeping the message vague and ambiguous
- c) Using simple language and avoiding jargon**
- d) Overloading the audience with information

9. What is the role of time management in public speaking?

- a) Delivering the speech within the allocated time**
- b) Speaking as quickly as possible to fit more content
- c) Ignoring the time limit and speaking for as long as desired
- d) Starting late and finishing early

10. Why is managing nervousness important in public speaking?
- a) To make the audience feel uneasy
 - b) To show vulnerability and weakness
 - c) To ensure the speech is not engaging
 - d) To improve the speaker's delivery and confidence**

Assessment Questions on Online Certificate Course 20-21 on Communication Proficiency

1. What is public speaking?

- a) Writing for a live audience
- b) Delivering a speech to a live audience
- c) Sending emails to a group of people
- d) Conducting online surveys

2. Why is audience engagement important in public speaking?

- a) To avoid eye contact with the audience
- b) To connect with the audience and keep them interested
- c) To discourage any interaction with the audience
- d) To make the audience uncomfortable

3. What should a well-structured speech have? *

- a) An engaging title
- b) A captivating conclusion
- c) A clear introduction, body, and conclusion
- d) Randomly arranged content

4. Which aspect of public speaking involves using voice modulation and gestures? *

- a) Audience engagement
- b) Clear messaging
- c) Verbal and nonverbal communication
- d) Time management

Online Certificate course on Communication Proficiency

Course Objectives:

- Equip you with the skills necessary to work in a team and develop soft skills to communicate efficiently and articulate yourself clearly.
- Determine the best speaking style for different types of speaking occasions.
- Improve your speaking skills, help you be a more critical thinker, fine-tune your verbal and nonverbal communication skills, and help you overcome public speaking anxiety.

Course Outcomes

By the end of this course, participants will be able to:

- Develop Techniques to manage and reduce anxiety associated with public speaking
- Gain confidence through repeated practice and constructive.
- Organize speeches with well-defined introduction bodies and conclusions.
- Utilize rhetorical and persuasive techniques to enhance the impact of speeches.

Certificate course on Communication Proficiency

A five-day Certificate Course on Communication Proficiency was organized by the Department of Basic Science from 5th to 9th Oct 2020 for first year students Online by Dr. K Sujatha is a HOD of Physics Department, Bengaluru was the resource person.

The schedule for a five-day Certificate Course on Communication Proficiency covered key topics.

Day 1: The event began with a formal inaugural function. Dr. S Karunakara, Principal CEC, HOD of Mathematics, Physics & Chemistry were present online during the inauguration. The program began by seeking the blessings of Almighty with invocation. Principal advised the students to utilize the benefits of the course completely. Dr. Jyothi P Welcomed the resource person and gave a course overview. Later the session was handed over to the speaker & he explained about Introduction to Public Speaking, Self - Assessment of current speaking skills & Speech Preparation and Organization.

Day 2: Planning and Scheduling Day two was dedicated to Developing Content and Supporting Material, Delivery Techniques & Engaging the Audience.

Day 3: The third day aimed at Handling Nervousness and Building confidence, Positive visualization and Mental Preparation & Impromptu Speaking.

Day 4: The fourth day provided an overview of Story Telling and Narrative Development, Final Speech Preparation & Managing Time and Pacing.

Day 5: The final day was about Final Presentation and Course Wrap Up, Final Speech Presentation & Future Opportunities for Public Speaking Practice.

Participants shared their experiences and insights, fostering a collaborative learning environment. The course concluded with a summary of key takeaways, a final Q&A session, and a feedback and evaluation segment to gather participants' input on the course.

Course on Pollution Control and Environmental Laws in India
Assessment Questions for the Course

1. The main global contributing factors to greenhouse-gas emissions are
 - a. **Electricity production and transportation**
 - b. Industrial processes
 - c. Agricultural processes
 - d. Agriculture and transportation
2. One of the following is the first major environmental protection act to be promulgated in India?
 - a. Environmental Act
 - b. Air act
 - c. **Water act**
 - d. none of the above
3. is a problem not associated with population growth?
 - a. Food and energy storages
 - b. Environmental pollution
 - c. Increased resource consumption
 - d. **none of the above**
4. Which of the following statements is true about global warming?
 - a. Global warming has led to large scale deforestation
 - b. **Global warming has led to a rise in the sea levels**
 - c. Global warming has led to a rapid increase in the population across several countries
 - d. Global warming has led to a huge amount of waste generation
5. Which of the following was the main purpose behind up the Central Pollution Control Board (CPCB)?
 - a. **main purpose of the Central Pollution Control Board was to regulate air pollution**
 - b. The main purpose of the Central Pollution Control Board was to regulate water pollution
 - c. The main purpose of the Central Pollution Control Board was to regulate noise pollution
 - d. The main purpose of the Central Pollution Control Board was to regulate deforestation
6. Which of the following statements about the ozone shield is accurate?
 - a. Ozone shield is found in the troposphere
 - b. **Ozone shield is found in the stratosphere**
 - c. Ozone shield is found in the exosphere
 - d. Ozone shield is found in the mesosphere
7. Which of the following statements is true about the ozone layer depletion?
 - a. Ozone layer depletion leads to the problem of skin cancer within humans
 - b. Ozone layer depletion results in a lower amount of production of phytoplankton
 - c. Ozone layer depletion hampers the growth of the terrestrial plants
 - d. **All of the above**

ATTESTED COPY

8. Which of the following statements is true?
- The Central Pollution Control Board has identified twenty-five industrial categories as significantly polluting
 - The Central Pollution Control Board has identified thirty-five industrial categories as significantly polluting
 - The Central Pollution Control Board has identified forty-five industrial categories as significantly polluting
 - The Central Pollution Control Board has identified seventeen industrial categories as significantly polluting**
9. Which of the following statements is true?
- Economic growth is the modern concept for development
 - Political growth is the modern concept for development
 - Sustainable growth is the modern concept for development**
 - Social growth is the modern concept for development
10. Which of the following statements is correct?
- The Chipko movement was about banning the use of chlorofluorocarbon, bromine and chlorine compounds
 - The Kyoto protocol was about banning the use of chlorofluorocarbon, bromine and chlorine compounds
 - The Appiko movement was about banning the use of chlorofluorocarbon, bromine and chlorine compounds
 - The Montreal protocol was about banning the use of chlorofluorocarbon, bromine and chlorine compounds**
11. Which of the following is true about the environment?
- The environment includes only biotic factors
 - The environment includes only abiotic factors
 - The environment includes both biotic and abiotic factors**
 - The environment includes neither biotic nor abiotic factors
12. Ozone depletion is caused due to increase in the level of
- Water vapour
 - Oxygen
 - Chlorofluorocarbon**
 - Carbon monoxide
13. Which of the following gas affects human health by reducing the blood's ability to carry oxygen to different parts of the body?
- Carbon monoxide**
 - Carbon dioxide
 - Sulphur dioxide
 - Nitrous dioxide
14. The best way to dispose plant waste is _____
- Burning
 - Composting**
 - Dumping in a hilly area
 - Incineration
15. Which of the following is not a major greenhouse gas _____?
- Carbon dioxide
 - Methane
 - Water vapour
 - Calcium carbonate**

16. Unburnt carbon particles cause _____
- Cardiac problem
 - Respiratory problems**
 - Throat problems
 - Skin infection
17. Maximum soot is released from _____
- Petrol vehicles
 - Diesel Vehicles
 - CNG vehicles
 - Thermal power plants**
18. In the metro city of Kolkata, the major cause of air pollution is _____
- Cement plants**
 - Chemical industry
 - Hydrocarbons
 - Water vapours
19. Which of the following legislations in India primarily deals with the protection and conservation of forests and wildlife?
- Water (Prevention and Control of Pollution) Act, 1974
 - Air (Prevention and Control of Pollution) Act, 1981
 - Environment (Protection) Act, 1986
 - Wildlife Protection Act, 1972**
20. Which legislation in India is primarily concerned with the prevention, control, and abatement of environmental pollution?
- Wildlife Protection Act, 1972
 - Air (Prevention and Control of Pollution) Act, 1981
 - Forest (Conservation) Act, 1980
 - Water (Prevention and Control of Pollution) Act, 1974**
21. Which law in India mandates the preparation of Environmental Impact Assessment (EIA) reports for certain projects and activities?
- Environment (Protection) Act, 1986**
 - Wildlife Protection Act, 1972
 - Forest (Conservation) Act, 1980
 - Public Liability Insurance Act, 1991
22. Which legislation in India is primarily concerned with the protection and management of forests?
- Wildlife Protection Act, 1972
 - Forest (Conservation) Act, 1980**
 - Air (Prevention and Control of Pollution) Act, 1981
 - Water (Prevention and Control of Pollution) Act, 1974
23. Which law in India is aimed at protecting and improving the quality of air and controlling air pollution?
- Wildlife Protection Act, 1972

Department of Civil Engineering

Course on Pollution Control and Environmental Laws in India

Course Objectives

After completion of the course, the trainees should be able to:

1. To provide a basic level understanding of the legislative framework of environmental regulation, its implementation and adjudication
2. To enable students to identify core environmental issues and legal and institutional responses to them.
3. To introduce the basic concepts and principles of environmental law and to analyse these principles as tools of environmental protection, where the laws and policies fall short.
4. To safeguard and improve the quality of the environment by preventing, controlling, and abating pollution.

Course Outcomes

The students will be able to:

1. The primary learning outcome is to sensitize the students towards human activities that adversely affect the environment and the need for regulation of such activities.
2. Students will develop a thorough understanding of practice and procedure followed by various environmental law enforcing agencies/bodies.
3. Students will be able to pursue environmental litigation before the National Green Tribunal and assist the Tribunal as a researcher or in any other capacity.
4. Students will be able to assist industries and projects in obtaining environmental clearance and compliances with other environmental laws.

REPORT OF COURSE ON POLLUTION CONTROL AND ENVIRONMENTAL LAWS IN INDIA

The Department of Civil Engineering, City Engineering College organized the course on “**Pollution Control and Environmental Laws in India**” by Sri D.R. Kumaraswamy, Senior Environmental Officer, Enviro Care Cell, Karnataka State Pollution Control Board, Bangalore from 7th to 11th September 2020 in Seminar Hall, 4th Floor, Department of Civil Engineering. Mrs. Vidyadhare, Asst. Prof., Department of Civil Engineering welcomed the speaker and audience. Dr. Thippeswamy, H. N., Prof. and Head, welcomed the speaker by presenting the medicinal plant to the speaker. Ms. R.V. Gayathri, Asst. Prof., Department of Civil Engineering introduced the speaker. Sri D.R. Kumaraswamy explained the remedial measurements in controlling the pollution. He also emphasized the following points:

- How to maintain our surrounding by cleaning as a citizen of India.
- How environmental laws are implemented.
- How to creating the awareness among public by educated people to maintain safe environment. The faculty members and students of our department were present.

Dr. Thippeswamy, H.N., Prof and Head gave vote of thanks.

About College

City Engineering College, Bangalore affiliated to Visvesvaraya Technological University (VTU) is centrally located in Bangalore. The College has expanded over the last 19 years with sophisticated infrastructure as a part of the Institution's commitment to provide higher quality education in the area of Engineering. The highly facilitated landmark building – provides a perfect ambience for creativity and learning. City Engineering College is known for its academic excellence, friendly welcoming atmosphere and community spirit. Over large number of full time students study here in a wide range of programs. It is a center of talented, experienced teachers who inspire and energize the students to achieve the best.

About the Department of Mechanical Engineering

The Department of Mechanical Engineering was established in 2005 with an annual intake of 120 students in the undergraduate Programme. The Department of Mechanical Engineering has state-of-the-art laboratories; these laboratories not only satisfy the curriculum requirements of the students very lucidly but also provide additional facilities to enhance the practical knowledge. The department consists of a team of well qualified teaching staff having Master degrees and Doctorates. The staff members of the Mechanical Department have taken up projects funded by external agencies like KSCST, VGST and VTU. The department received a grant of Rs. 5 Lakh in the year 2019 from VGST to carry out research on Advanced Materials in Green Energy. The Department also has a Research center approved by VTU.

About Energy and Environment

Energy and Environment courses cover topics related to energy production, consumption, and environmental impact. They may also address the challenges of energy use and sustainable energy. Some courses may include practical learning on emerging technologies, such as energy auditing, waste water treatment, and air and water pollution control.

Energy and Environment courses typically focus on the intersection of energy production, consumption, and environmental impact. Energy and Environment courses cover a range of topics related to sustainable energy, environmental conservation, and the challenges posed by energy use

Resource Person Profile

D.R. Kumaraswamy

**Retd. Senior Environmental Officer, Enviro Care Cell,
Karnataka State Pollution Control Board, Bangalore**

- Shri D.R. Kumaraswamy born on 02/08/1959 at Shivmogga. He graduated (B.E. Mechanical) at Davanagere from GBDT College of Engineering, Mysore University in 1983 with first class with distinction. He completed his Master Degree (Environmental Engineering) from BVM College of Engineering, V.V. Nagar, Anand, Gujarat.
- He joined the KSPCB during 1984 as Assistant Engineer. He held the number of positions in the Pollution Control Board like Member Secretary, Chief Environmental Officer & Head of the Central Laboratory & worked almost all the district of the state.
- He is also an External Examiner for Visveswaraiah Technological University Engineering College.
- Presently he is Retired Senior Environmental Officer, Enviro care cell Head office & SEO, Bangalore North office, Bangalore.
- He has received number of awards from local organizations like Parisara Ratna, Swarna Bhushana, Karnataka Seva Puraskara & Best Environmental Officer.

CITY
ENGINEERING COLLEGE

Department of Mechanical Engineering
Course on Energy and Environment
Assessment

1. The main global contributing factors to greenhouse-gas emissions are
 - a. **Electricity production and transportation**
 - b. Industrial processes
 - c. Agricultural processes
 - d. Agriculture and transportation
2. One of the following is the first major environmental protection act to be promulgated in India?
 - a. Environmental Act
 - b. Air act
 - c. **Water act**
 - d. none of the above
3. is a problem not associated with population growth?
 - a. Food and energy storages
 - b. Environmental pollution
 - c. Increased resource consumption
 - d. **none of the above**
4. Which of the following statements is true about global warming?
 - a. Global warming has led to large scale deforestation
 - b. **Global warming has led to a rise in the sea levels**
 - c. Global warming has led to a rapid increase in the population across several countries
 - d. Global warming has led to a huge amount of waste generation
5. Which of the following was the main purpose behind up the Central Pollution Control Board (CPCB)?
 - a. **main purpose of the Central Pollution Control Board was to regulate air pollution**
 - b. The main purpose of the Central Pollution Control Board was to regulate water pollution
 - c. The main purpose of the Central Pollution Control Board was to regulate noise pollution
 - d. The main purpose of the Central Pollution Control Board was to regulate deforestation
6. **Which of the following statements about the ozone shield is accurate?**
 - a. Ozone shield is found in the troposphere
 - b. **Ozone shield is found in the stratosphere**
 - c. Ozone shield is found in the exosphere
 - d. Ozone shield is found in the mesosphere
7. **Which of the following statements is true about the ozone layer depletion?**
 - a. Ozone layer depletion leads to the problem of skin cancer within humans
 - b. Ozone layer depletion results in a lower amount of production of phytoplankton
 - c. Ozone layer depletion hampers the growth of the terrestrial plants
 - d. **All of the above**

8. Which of the following statements is true?
- The Central Pollution Control Board has identified twenty-five industrial categories as significantly polluting
 - The Central Pollution Control Board has identified thirty-five industrial categories as significantly polluting
 - The Central Pollution Control Board has identified forty-five industrial categories as significantly polluting
 - The Central Pollution Control Board has identified seventeen industrial categories as significantly polluting**
9. Which of the following statements is true?
- Economic growth is the modern concept for development
 - Political growth is the modern concept for development
 - Sustainable growth is the modern concept for development**
 - Social growth is the modern concept for development
10. Which of the following statements is correct?
- The Chipko movement was about banning the use of chlorofluorocarbon, bromine and chlorine compounds
 - The Kyoto protocol was about banning the use of chlorofluorocarbon, bromine and chlorine compounds
 - The Appiko movement was about banning the use of chlorofluorocarbon, bromine and chlorine compounds
 - The Montreal protocol was about banning the use of chlorofluorocarbon, bromine and chlorine compounds**
11. Which of the following is true about the environment?
- The environment includes only biotic factors
 - The environment includes only abiotic factors
 - The environment includes both biotic and abiotic factors**
 - The environment includes neither biotic nor abiotic factors
12. Ozone depletion is caused due to increase in the level of
- Water vapour
 - Oxygen
 - Chlorofluorocarbon**
 - Carbon monoxide
13. Which of the following gas affects human health by reducing the blood's ability to carry oxygen to different parts of the body?
- Carbon monoxide**
 - Carbon dioxide
 - Sulphur dioxide
 - Nitrous dioxide
14. The best way to dispose plant waste is _____
- Burning
 - Composting**
 - Dumping in a hilly area
 - Incineration
15. Which of the following is not a major greenhouse gas _____?
- Carbon dioxide
 - Methane
 - Water vapour
 - Calcium carbonate**
16. Unburnt carbon particles cause _____

- a. Cardiac problem
 - b. Respiratory problems**
 - c. Throat problems
 - d. Skin infection
17. Maximum soot is released from _____
- a. Petrol vehicles
 - b. Diesel Vehicles
 - c. CNG vehicles
 - d. Thermal power plants**
18. In the metro city of Kolkata, the major cause of air pollution is _____
- a. Cement plants**
 - b. Chemical industry
 - c. Hydrocarbons
 - d. Water vapours
19. Which of the following legislations in India primarily deals with the protection and conservation of forests and wildlife?
- a. Water (Prevention and Control of Pollution) Act, 1974
 - b. Air (Prevention and Control of Pollution) Act, 1981
 - c. Environment (Protection) Act, 1986
 - d. Wildlife Protection Act, 1972**
20. Which legislation in India is primarily concerned with the prevention, control, and abatement of environmental pollution?
- a. Wildlife Protection Act, 1972
 - b. Air (Prevention and Control of Pollution) Act, 1981
 - c. Forest (Conservation) Act, 1980
 - d. Water (Prevention and Control of Pollution) Act, 1974**
21. Which law in India mandates the preparation of Environmental Impact Assessment (EIA) reports for certain projects and activities?
- a. Environment (Protection) Act, 1986**
 - b. Wildlife Protection Act, 1972
 - c. Forest (Conservation) Act, 1980
 - d. Public Liability Insurance Act, 1991
22. Which legislation in India is primarily concerned with the protection and management of forests?
- a. Wildlife Protection Act, 1972
 - b. Forest (Conservation) Act, 1980**
 - c. Air (Prevention and Control of Pollution) Act, 1981
 - d. Water (Prevention and Control of Pollution) Act, 1974
23. Which law in India is aimed at protecting and improving the quality of air and controlling air pollution?
- a. Wildlife Protection Act, 1972
 - b. Forest (Conservation) Act, 1980
 - c. Air (Prevention and Control of Pollution) Act, 1981**
 - d. Water (Prevention and Control of Pollution) Act, 1974
24. Which legislation in India is aimed at protecting and improving the quality of the environment and preventing hazards to human beings, other living creatures, plants, and property?

- a. **Environment (Protection) Act, 1986**
 - b. Wildlife Protection Act, 1972
 - c. Forest (Conservation) Act, 1980
 - d. Water (Prevention and Control of Pollution) Act, 1974
25. Which of the following pollutants is primarily targeted by the Air (Prevention and Control of Pollution) Act, 1981 in India?
- a. Noise pollution
 - b. Water pollution
 - c. Soil pollution
 - d. **Air pollution**

Feedback Analysis

Sample Feedback

Name of the Participant	Course objectives were stated clearly and met	The Course content was well organized	Course enhanced my skills	Classes were interesting and interactive	Give overall rating
HALLESH	Agree	Agree	Agree	Agree	Average
LOKESH BHARANI	Agree	Neutral	Neutral	Neutral	Good
MANJUNATH H	Agree	Agree	Agree	Agree	Good
TRHISHUL KUMAR	Agree	Agree	Agree	Neutral	Excellent
DHANUSH B R	Agree	Agree	Neutral	Agree	Average
DHANUSH M	Neutral	Neutral	Neutral	Agree	Good
HARSHA K	Agree	Agree	Neutral	Agree	Good
MANOJ RS	Neutral	Neutral	Agree	Neutral	Excellent
MITHUN SHARMA N	Agree	Neutral	Agree	Agree	Average
MD.ARAFATH	Agree	Agree	Agree	Agree	Good

The above graph indicates 47% of Excellent, 45% of Good & 8% of Average rating given by the students after completion of course.

Date:11/09/2020

To,

D.R. Kumaraswamy
Senior Environmental Officer,
Enviro Care Cell,
Karnataka State Pollution Control Board,
Bangalore

Dear D.R. Kumaraswamy,

Subject: Letter of appreciation for conducting Course on Energy and Environment.

We express our sincere gratitude for your invaluable and exemplary service rendered as a resource person for the **Course on Energy and Environment** from 7th to 11th September 2020 conducted by Department of Mechanical Engineering, City Engineering College, Bangalore.

Thanking You,

Sincerely,

Dr. V.S. Ramamurthy
Principal
CEC

Department of Mechanical Engineering

Course on Energy and Environment

Course Objectives

After completion of the course, the trainees should be able to:

1. To provide a basic level understanding of the legislative framework of environmental regulation, its implementation and adjudication
2. To enable students to identify core environmental issues and legal and institutional responses to them.
3. To introduce the basic concepts and principles of environmental law and to analyse these principles as tools of environmental protection, where the laws and policies fall short.
4. To safeguard and improve the quality of the environment by preventing, controlling, and abating pollution.

Course Outcomes

The students will be able to:

1. The primary learning outcome is to sensitize the students towards human activities that adversely affect the environment and the need for regulation of such activities.
2. Students will develop a thorough understanding of practice and procedure followed by various environmental law enforcing agencies/bodies.
3. Students will be able to pursue environmental litigation before the National Green Tribunal and assist the Tribunal as a researcher or in any other capacity.
4. Students will be able to assist industries and projects in obtaining environmental clearance and compliances with other environmental laws.

REPORT OF COURSE ON ENERGY AND ENVIRONMENT

The Department of Mechanical Engineering, City Engineering College organized the course on “**Energy and Environment**” by Sri D.R. Kumaraswamy, Senior Environmental Officer, Enviro Care Cell, Karnataka State Pollution Control Board, Bangalore from 7th to 11th September 2020 in Seminar Hall, Department of Mechanical Engineering. Mr. Sampath HP, Asst. Prof., Department of Mechanical Engineering welcomed the speaker and audience. Dr. S.Karunakara., Prof. and Head, welcomed the speaker by presenting the medicinal plant to the speaker. Mr.Veeresh Naik, Asst. Prof., Department of Mechanical Engineering introduced the speaker. Sri D.R. Kumaraswamy explained the remedial measurements in controlling the pollution. He also emphasized the following points:

- How to maintain our surrounding by cleaning as a citizen of India.
- How environmental laws are implemented.
- How to creating the awareness among public by educated people to maintain safe environment. The faculty members and students of our department were present.

Dr.S.Karunakara., Prof and Head gave vote of thanks.
